# 1. Safety Precautions

- 1. The design this product contains special hardware and many circuits and components specially for safety purposes. For continued protection, no changes should be made to the original design unless authorized in writing by the manufacturer. Replacement parts must be identical to those used in the original circuits. Service should be performed by qualified personnel only.
- 2. Alterations of the design or circuitry of the product should not be made. Any design alterations of the product should not be made. Any design alterations or additions will void the manufacture's warranty and will further relieve the manufacture of responsibility for personal injury or property damage resulting therefrom.
- 3. Many electrical and mechanical parts in the product have special safety related characteristics. These characteristics are often not evident from visual inspection nor can the protection afforded by them necessarily be obtained by using replacement components rated for higher voltage, wattage, etc. Replacement parts which have these special safety characteristics are identified in the parts list of service manual. Electrical components having such features are identified by ( \( \bigcap \) )on the schematic diagram and parts list in the service manual. The use of a substitute replacement which does not have the same safety characteristics as the recommended replacement part shown in the parts list of service manual may create shock, fire, or other hazards.
- 4. The leads in the products are routed and dressed with ties, clamps, tubings, barriers and the like to be separated from live parts, high temperature parts, mpving parts and or sharp edges for the prevention of electric shock and fire hazard. When service is required, the original lead routing and dress should be observed, and it should be confirmed that they have been returned to normal, after reassembling.
- 5. Leakage current check (Electrical shock hazard testing)
  - After re assembling the product, always perform an isolation check on the exposed metal parts of the product (antenna terminals, knobs, metal cabinet, screw heads, headphone jack, control shafts, etc.) to be sure the product is safe to operate without danger of electrical shock. Do not use a line isolation transformer during this check.
  - Plug the AC line cord directly into the AC outlet, using a"Leakage current tester", measure the leakage current from each exposed metal part of the cabinet, particularly any exposed metal part having a return path to the chassis, to a known good earth ground. Any leakage current must not exposeed 0.5mA AC(r.m.s.)
  - · Alternate check method
  - Plug the AC line cord directly into the AC outlet. Use an AC voltmeter having 1,000 ohms per volt or more sensitivity in the following manner.

    Connect a 1,500 ohms 10W resistor paralleled by a 0.15  $\mu$  F AC type capacitor between an exposed metal part and a known good earth ground. Measure the AC voltage across the resistor with the AC voltmeter. Move the resistor connection to each exposed metal part, particularly any exposed metal part having a return path to the chassis, and measure the AC voltage across the resistor. Now, reverse the plug in the AC outlet and repeat each measurement. Any voltage measured

# Warning

- 1. This equipment has been designed and manufactured to meet international safety standards.
- 2. It is the legal responsibility of the repairer to ensure that these safety standards are maintaintaind.
- 3. Repairs must be made in accordance with the relevant safety standards.
- 4. It is essential that safety critical components are replaced by approved parts.
- 5. If mains voltage selector is provided, check setting for local voltage.

# / CAUTION

Burrs formed during molding may be left over on some parts of the chassis. Therefore, pay attention to such burrs in the case of preforming repair of this system.

# 2. Safety Precaution about UX — C40R

# IMPORTANT FOR LASER PRODUCTS PRECAUTIONS

- 1. CLASS 1 LASER PRODUCT
- DANGER: Invisible laser radiation when open and interlock failed or defeated. Avoid direct exposure to beam.
- CAUTION: Do not open the rear cover. There are no user serviceable parts inside the unit; leave all servicing to qualified service personnel.
- 4. CAUTION: The compact disc player uses invisible laser radiation and is equipped with safety switches which prevent the emission of radiation when the CD holder is open. It is dangerous to defeat the safety switches.
- 5. CAUTION: Use of controls for adjustments and the performance of procedures other than those specified herein may result in exposure to hazardous radiation.
- 6. CAUTION: The laser is able to function, if safety switches out of function. The laser light is invisible, avoid exposure, do not disassemble the laser unit, but replace the complete unit.

# IMPORTANT (In the United Kingdom)

Mains Supply (AC 230 V<sub>√</sub>, 50 Hz only)

DO NOT cut off the mains plug from this equipment. If the plug fitted is not suitable for the power points in your home or the cable is too short to reach a power point, then obtain an appropriate safety approved extension lead or consult your dealer.

BE SURE to replace the fuse only with an identical approved type, as originally fitted, and to replace the fuse cover.

If nonetheless the mains plug is cut off ensure to remove the fuse and dispose of the plug immediately, to avoid a possible shock hazard by inadvertent connection to the mains supply.

# IMPORTANT

DO NOT make any connection to the terminal which is marked with the letter E or by the safety earth symbol or coloured green or green-and-yellow.

The wires in the mains lead on this product are coloured in accordance with the following code:

As these colours may not correspond with the coloured markings identifying the terminals in your plug proceed as follows:

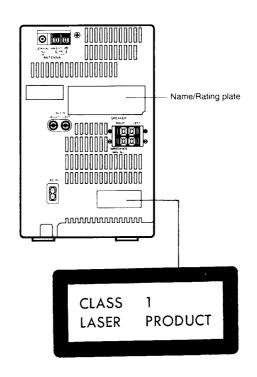

The wire which is coloured blue must be connected to the terminal which is marked with the letter N or coloured black.

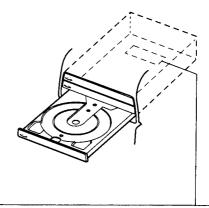

The wire which is coloured brown must be connected to the terminal which is marked with the letter L or coloured red.

IF IN DOUBT - CONSULT A COMPETENT ELECTRICIAN.

# CAUTION RSK OF ELECTRIC SHOCK DO NOT OFFN CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK), NO USER-SERVICEABLE PARTS INCIDE, REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

# IDENTIFICATION LABEL AND CERTIFICATION LABEL

DANGER: Invisible laser radiation when open and interlock failed or defeated. AVOID DIRECT EXPOSURE TO BEAM (a)

le laser ADVARSEL: Usynlig laserpen and stråling ved åbning, når lefeated. sikkerhedsaforydere er ude POSURE af funktion. Undgåudsæt-(e) telse for stråling. (d)

VARNING: Osynlig laserstrålning när denna del är öppnad och spärren är urkopplad. Betrakta ej

VARO: Avattaessa ja suojalukitus ohitettaessa olet alttiina näkymättömälle lasersäteilylle. Älä katso säteeseen. (f)

The lightning firsth with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated diangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) Instructions in the literature accompanying the appliance.

# ■ Inportant management points regarding safety(Item demanding special safety precautions)

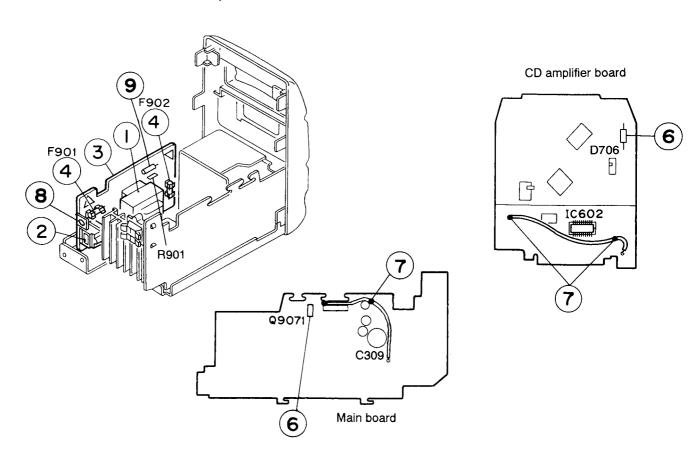

1. Power transformer marking: VTP66J9 - 12A

The torque of the screw driver for the power transformor must be controlled.

- 2. Concerning the AC socket, the next marking must be confirmed and to avoid print circuit board pattern damage. The AC socket must not float from print circuit board.
- •Marking ------ HSC0528
- 3. Concerning the primary terminal and the adjacent secondary terminal on the print circuit board to provide proper creeping and spatial distance, solder must not protrude from soldering round.
- 4. Before installation confirm the fuse capacity indication, s or r mark on the holder.

REF.NO	Capacity and mark	Indication on P.C.board	Version
F901	T500mA	T500mA	E/EN/G
F902	T5A	T5A	E/EN/G

- 5. Wires must be clamped or secured at the locations shown in the figure so that the wire do not touch to live parts, moving part, hot part, or sharp edges.
- 6. Following parts are controlled as the heated parts. confirm that the flammable parts are lifted up the parts in ( ) must be controlled.
- 7. The single wire on the printed circuit board must be fixded with spacer of bond.
  - IC31, IC602, D901~D904, D9072, (D706), (Q9071), Q9041, R9073, R902, R9005, R3021
- 8. Primary pattern must be covered by barrier.

#### IMPORTANTI PRECAUZIONI PER PRODOTTI LASER

#### PRECAUZIONI

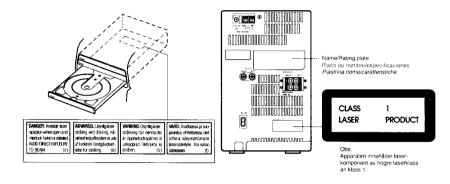

- 1. PRODOTTO LASER DI CLASSE 1
- 2.PERICOLO: Quando l'apparecchio è aperto ed i dispositivi di sicurezza non funzionano o sono stati disattivati, vengono prodotte invisibili radiazioni laser. Evitare l'esposizione diretta
- al raggio.
  3.ATTENZIONE: Non aprire la copertura posteriore. All'interno dell'unità non vi sono parti che possono interessare l'utente: fare eseguire qualsiasi intervento a personale di assistenza qualificato.

  4.ATTENZIONE: L'uso di comandi e procedure
- diversi da quanto specificato possono risultare nell'esposizione a radiazioni pericolose.

(No. 1979)

#### REPRODUCCION DE ETIQUETAS Y SU UBICACION

#### **ETICHETTE E LORO POSIZIONE**

#### **FEATURES**

- Multi-function 3-CD changer
- Radio data system (RDS)
- Active Hyper-Bass PRO circuit for lowfrequency sound reproduction
   One-touch operation (IllumiMagic COMPUT
- One-touch operation (IllumiMagic COMPU PLAY)
   40-key remote control unit operates all CD.
- cassette deck and tuner functions

  Direct Disc Select/Skip Play/Search Play/
- Continuous Play/Repeat Play/Random Play

  Programmed play of up to 20 tracks
- U-Turn auto-reverse full-logic mechanism with
- Dolby\* B NR

   Auto tane select mechanism
- Metal (type IV) and CrO<sub>2</sub> (type II) tape can be
- played back for superior tone quality

  CrO2 (type II) tape recording capability
- Music scan in forward or reverse direction
- 2-band digital synthesizer tuner with 45-station
- 2-band digital synthesizer tuner with 45-station (30 FM and 15 AM (MW/LW)) preset capability
- Seek/manual tuning
   Auto preset tuning
- Auto preset tuning
   Timer/Clock function
- Timer on/off with preset volume function
- . Sleep timer can be set for up to 120 minutes
- Dolby noise reduction system manufactured under license from Dolby Laboratories Licensing Corporation. "Dolby" and the double-D symbol DID are trademarks of Dolby Laboratories Licensing Corporation.

### CARACTERISTICAS

- Cambiador de 3 CD con múltiples funciones
- Sistema de datos por radio (RDS)
   Circuito Active Hyper-Bass PRO para
- reproducción sonidos de baja frecuencia
- Operación de un solo toque (IllumiMagic COMPU PLAY)
- Unidad de control remoto con 40 teclas para operación del CD, platina de cassette y funciones del sintonizador
- Selección directa de disco/reproducción con salto/reproducción con búsqueda/ reproducción contínua/repetición de reproducción/reproducción aleatoria
- Reproducción programada hasta 20 pistas
  Mecanismo de lógica completa inversión
- automática en U con Dolby\* B NR

   Mecanismo de selección automática de cinta

   Para obtener una calidad de tono superior es posible utilizar cintas de metal (tipo IV) y de CrO2 (tipo II)
- Capacidad para grabación de cintas de CrO2 (tipo II)
- Búsqueda de músicas hacia adelante o hacia atrás
- Sintonizador sintetizador digital de 2 bandas con capacidad para presintonización de 45 estaciones (30 de FM y 15 de AM (OM/OL))
- Sintonización búsqueda/manual
- Sintonización programada automática
- Función de temporizador/reloj
   Activación/desactivación del temporizador
- con función de volumen preajustado

  El temporizador despertador puede ser
  programado hasta un máximo de 120 minutos
- Reductor de ruido Dolby fabricado bajo licencia de Dolby Laboratories Licensing Corporation. "Dolby" y et simbolo de la doble D DD son marcas de Dolby Laboratories Licensing Corporation.

#### CARATTERISTICHE

- Lettore cambiadischi multifunzione a 3 CD
- Sistema dati radio (RDS)
- Circuito Active Hyper-Bass PRO di nuova concezione per la riproduzione delle basse frequenze
- Funzionamento ad un tocco (Illumi Magic COMPU PLAY)
- L'unità di telecomando da 40 tasti controlla tutte le funzioni del lettore CD, del registratore a cassette e del sintonizzatore
- Selezione diretta dischi/riproduzione con evitamento/riproduzione con ricerca/ riproduzione continua/riproduzione ripetuta/ riproduzione casuale
- Riproduzione programmata di fino a 20 brani
   Meccanismo U-Turn di inversione automatica completamente logico con sistema antirumore Dolby\* B NR.
- Meccanismo per la selezione automatica del tipo di pastro
- Possono essere riprodotti nastri Metal (tipo IV) e CrO2 (tipo II) che forniscono una migliore qualità musicale
- Capacità di registrazione su nastri CrO2 (tipo II)
   Funzione di scansione dei brani in ambedue
- Sintonizzatore a sintetizzazione digitale a 2 bande con capacità di preselezione di fino a 45 stazioni (30 FM e 15 AM (MW/LW))
- Sintonizzazione con ricerca/manuale
- Sintonizzazione con preselezione automatica
- Funzione timer/orologio
- Funzione di attivazione e disattivazione via timer con preimpostazione del volume
- Il timer per la spegnimento automatico può essere impostato per fino a 120 minuti
- Sistema di riduzione del rumore fabbricato su licenza della Dolby Laboratories Licensing Corporation. La parola "Dolby" ed il simbolo DII della doppia D sono marchi registrati della Dolby Laboratories Licensing Corporation.

#### SAFETY PRECAUTIONS

#### PRECAUCIONES DE SEGURIDAD

#### PRECAUZIONI PER LA SICUREZZA

# Prevention of Electric Shocks, Fire Hazards and Damage

- Even when the POWER button is set to STANDBY, a very small current will flow. To save power and for safety when not using the unit for an extended period of time, disconnect the power cord from the household AC outlet.
- Do not handle the power cord with wet hands.
   When unplugging from the wall outlet, always.
- grasp and pull the plug, not the power cord.

  Consult your nearest dealer when damage, disconnection, or contact failure affects the
- 5. Do not bend the cord severely, or pull or twist
- Do not modify the power cord in any manner.
   To avoid accidents, do not remove screws.
- To avoid accidents, do not remove screws to disassemble the unit and do not touch anything inside the unit.
- Do not insert any metallic objects into the unit.
- Unplug the power cord when there is a possibility of lightning.

  10.If water oets inside the unit, unplug the power.
- cord from the outlet and consult your dealer.

  11. Do not block the unit's ventilation holes that
- allow heat to escape.

  Do not install the unit in a badly ventilated place
- Since this unit uses a motor-driven CD holder or CD tray, make sure that your hand or other object does not obstruct holder or tray movement.

#### POWER button

When the power cord is connected to a household AC outlet, the power STANDBY indicator lights in the display window. When the POWER button is pressed, the power STANDBY indicator goes out.

When this unit is plugged into an AC outlet, it consumes a small current to operate the remote control and timer, or to back up the memory of the microprocessor, even when the POWER button is set to STANDBY.

# Prevención de choques eléctricos, peligro de incendio y daños

- Aunque el boton de alimentación POWER, esté colocado en espera STANDBY, lluye una pequenisima corriente electrica. Para ahorrar energia y por seguridad cuando no utiliza esta unidad durante un largo periodo, desconecte el cordón eléctrico del tomacorriente de CA.
- No manipule el cordón eléctrico con las manos mojadas.
- Cuando lo desenchula del tomacorriente de la pared, sujételo siempre por el enchufe, nunca por el cordón.
- En caso de que el cordón sea afectado por daños, desconexión, o falso contacto, consulte a su agente más cercano.
- 5. No doble en ángulo agudo el cordón, no jale del mismo ni lo retuerza.6. No modifique el cordón eléctrico de ninguna
- manera.
  7. Para evitar accidentes, no extraiga los tornillos para desarmar la unidad y no toque
- nada dentro de la misma.

  8 No inserte ningún objeto metálico dentro de la unidad
- Desenchufe el cordón eléctrico cuando
- haya posibilidad de caída de rayos. 10. Si se introduce agua dentro de la unidad, desenchufe el cordón eléctrico del tomacorriente y consulte a su agente.
- No bloquee los orificios de ventilación de la unidad que permiten el escape de calor. No instalie la unidad en un lugar mal ventilado.
- Como esta unidad utiliza un portadisco o una bandeja de CD motorizado, asegúrese de que su mano u otro objeto no obstruya el movimiento del mismo.

#### Botón POWER

Cuando el cable de alimentación está conecidado a un tomacorrientes de CA, se enciende el indicador de alimentación STANDBY en la ventanilla de indicación. Cuando presiona el boton POWER, se apaga la luz indicadora de alimentación STANDBY.

Esta unidad consume una pequeña corriente cuando se la conecta a un tomacorriente de CA, para hacer funcionar el controlador remoto y el temporizador, o para apoyo de la memoria del microprocesador, aún cuando se haya colocado el botón POWER en STANDBY.

# Prevenzione di scosse elettriche, fiamme e

- Anche quando l'interruttore POWER si trova sulla posizione STANDBY, una piccola quantità di corrente continua a fluire. Per risparmiare energia e per ragiori di sicurezza, scollegare il cavo dell'almentazione dalla presa di correi CA quando si prevede di non utilizzare l'unità per un periodo prolungato.
- Non maneggiare il cavo di alimentazione con le mani bagnate.
- Per scollegarsi dalla presa di rete, afferrare sempre la spina e non il cavo dell'alimentazione.
- Consultare il rivenditore più vicino quando il cavo è danneggiato, scollegato o con contatti scadenti
- Non piegare eccessivamente il cavo, non tirarlo e non torcerlo.
- Non modificare il cavo di alimentazione in alcun modo.
- Per evitare incidenti, non rimuovere viti per smontare l'unità e non toccare alcun componente interno.
- 8. Non inserire alcun oggetto metallico nell'unità.
  9. Scollegare il cavo di alimentazione durante
- temporali con fulmini. 10.Se dell'acqua dovesse penetrare all'interno dell'unità, scollegare il cavo dell'alimentazione dalla presa di rete e consultare il proprio
- rivenditore.

  11.Non bioccare i fori per la ventilazione dell'unità che permettono la dissipazione del calore.

  Non installare l'unità in un luogo con ventilazione scadente.
- 12. Dato che questa unità utilizza un piatto o caricatore de CD motorizzato, accertarsi di non ostruire il movimento con una mano o un oggetto

#### Interruttore di accensione (POWER)

Se il cavo di alimentazione è collegato con una presa di corrente, l'indicatore del modo di attesa (STANDBY) si illumina sul display. Se l'interruttore POWER viene acceso, l'indicatore STANDBY si spegne.

Quando questa unità è collegata ad una presa di corrente CA, essa consuma una piccola quantità di corrente per il funzionamento del telecomando e del timer o per il mantenimento della memoria del microprocessore anche quando il tasto POWER è impostato su STANDRY Do not use this unit in direct sunlight where it would be exposed to high temperatures above 40°C (104°F).

· When abnormal operation occurs. \* Unplug the AC power cord from the AC outlet. Then reconnect and switch the power ON.

When the AC power cord is unplugged. never close the open tray by hand. To close it, plug the power cord in again and press the a button. Otherwise it may cause damage to the unit.

- 1. Avoid installing in the following places
- Where it could be subject to vibrations.
- · Where it is excessively humid, such as in
- · Where it could be magnetized by a magnet or speaker
- 2. Pay attention to dust

Be sure to close the CD holder or CD tray so that dust does not collect on the lens.

- 3. Condensation
- In the following cases, condensation may occur in the unit, in which case the unit may not operate correctly.
- In a room where a heater has just been switched on.
- In a place where there is smoke or high humidity . When the unit is moved directly from a cold
- to a warm room.

In these cases, set the POWER button to ON and wait 1 or 2 hours before use.

4. Volume setting

CDs produce very little noise compared with analog sources. If the volume level is adjusted for these sources, the speakers may be damaged by the sudden increase of output level. Therefore, lower the volume before operation and adjust it as required during play

5. Do not place cassette tapes, etc. near the

speakers Since there are magnets in the speakers, do not place tapes or magnetic cards on them as recorded data could be erased.

- 6. Keep this unit away from your TV When this unit is used near a TV, the TV picture could be distorted. If this happens, move this unit away from the TV. If this does not correct the situation, avoid using this unit when the TV is turned on
- Cleaning the cabinet If the cabinet gets dirty, wipe it with a soft, dry cloth. Never use benzine or thinner as
- these could damage the surface finish. 8. When listening with headphones
- Do not listen at high volumes as this could damage your hearing.

No utilice esta unidad baio la luz directa del sol donde podria quedar expuesta a temperaturas superiores a 40°C.

· Cuando hay fallas de funcionamiento. Desenchule el cordón de alimentación CA del tomacorriente de CA. Luego reconéctelo y conecte la

Cuando se desenchufa el cordón de alimentación CA, nunca cierre el portadisco con la mano. Para cerrario. enchufe otra vez el cordón de alimentación y presione el botón ≜. De lo contrario podrá dañar la unidad.

- Evite instalarla en los siguientes lugares
- Donde pueda ser sujeta a vibraciones.
   Donde hava humedad excesiva, tal como en un cuarto de baño.
- · Donde pueda ser magnetizada por un imán o altavoz
- 2. Preste atención al polvo

Asegúrese de cerrar el portadisco o compartimiento de CD para que el polvo no se deposite sobre la lente. No toque la lente.

3. Condensación

En los siguientes casos, puede producirse condensación dentro de la unidad y en consecuencia la unidad no funcionará correctamente.

- En una sala donde haya un calentador encendido
- En un lugar donde haya humo o gran humedad.
- · Cuando se traslada rápidamente la unidad de una sala fria a una templada En estos casos, coloque el botón POWER en ON (conectado) y espere 1 o 2 horas entes de utilizarla
- Aiuste del volumen

Los productos de CD producen muy poco ruido comparados con las fuentes analógicas. Si ajusta el nivel de volumen para estas fuentes, es posible que los altavoces sean dañados por el incremento brusco del nivel de salida. Por ello, reduzca el volumen antes de la operación y ajústelo como desee durante la reproducción.

5. No coloque cassottes de cinta, etc., próximos a los altavoces

Como hay imanes en los altavoces, no coloque cintas o tarjetas magnéticas sobre los mismos, ya que los datos grabados pueden ser borrados

6. Mantenga esta unidad lejos de su TV

Cuando se usa esta unidad próxima a un TV. la imagen de éste puede ser distorsionada. Si ello ocurre, mueva esta unidad lejos del TV. Si esto no corrige el problema, evite usar esta unidad cuando el TV está encendido

7. Limpieza del gabinete

Si el gabinete se ensucia límpielo con un paño suave y seco. Nunca utilice bencina o solventes va que estos pueden dañar la terminación de la superficie

8. Cuando escuche con auriculares

No escuche con el volumen muy alto porque podrían dañarse sus oídos

Non utilizzare questa unità in luoghi esposti alla luce solare diretta dove la temperatura può superare i 40°C.

· Se l'unità non funziona normalmente. Scollegare il cavo di alimentazione alla oresa di corrente, quindi ricollegarlo e riaccendere l'unità.

Se il cavo di alimentazione viene scollegato, non richiudere i niatti portadisco a mano. Per farlo, ricollegare il cavo di alimentazione e premere il tasto & Itrimenti si può danneggiare l'apparecchio

- 1. Evitare l'installazione nei luoghi seguenti In luoghi dove l'unità può essere soggetta
- a vihrazioni · In luoghi eccessivamente umidi come una
- stanza da bagno.
- In luoghi dove l'unità può essere magnetizzata da un magnete o da un

Fare attenzione alla polvere

Accertarsi di chiudere il piatto o caricatore di CD in modo che la polvere non si raccolga sulla lente del pickup. Non toccare la lente del pickup

Condensa

- Nei casi sequenti della condensa si potrebbe formare nell'unità impedendo funzionamento corretto dell'unità stessa
- In una stanza in cui il riscaldamento è appena stato acceso.
- · In un luogo fumoso o con elevata umidità Quando l'unità viene spostata direttamente da una stanza fredda ad una calda.
- In questi casi, portare il tasto POWER su ON ed attendere 1 o 2 ore prima di utilizzare l'unità.

Impostazione del volume I CD producono un rumore estremamente basso se confrontati con fonti analogiche. Se il livello del volume fosse impostato per tali fonti, i diffusori potrebbero venire danneggiati dall'improvviso aumento del livello in uscita Abbassare perciò il volume prima dell'uso e regolarlo quindi durante la riproduzione

5. Non posare nastri a cassetta, ecc., in prossimità dei diffusori

Dato che i diffusori incorporano dei magneti non posare nastri registrati o schede magnetiche su di essi in quanto i materiali registrati potrebbero venire cancellati.

6. Tenere l'unità lontana dal televisore

Quando questa unità viene utilizzata ir prossimità di un televisore, l'immagine TV potrebbe venire distorta. Se ciò dovesse accadere, allontanare l'unità dal televisore. Se ciò non fosse sufficiente ad eliminare le interferenze, evitare di utilizzare questa unità quando il televisore è acceso.

Pulizia dell'esterno dell'unità

Se l'esterno dell'unità fosse sporco, strofinare con un panno morbido ed asciutto. Non usare mai benzina o diluente in quanto essi possono danneggiare la finitura delle superfici.

8. Ascolto con le cuffie

 Non ascoltare ad alto il volume in modo da danneggiare le orecchie

CONNECTIONS

are completed

o∏igini trapa

Do not switch the power on until all connections

Antenna connection and adjustment

#### CONEXIONES

 No conecte la alimentación hasta haber completado todas las conexiones.

## COLLEGAMENTI

• Non attivare l'alimentazione prima del completamento dei collegamenti

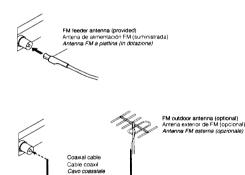

#### Collegamento e regolazione antenna

• Regolazione antenna AM ad anello (MW/LW)

- Keen the loop antenna away from the unit and install it so that the best recention is obtained. (Do not leave the antenna wire in a bundle.) Conserve la antena de cuadro separada de la unidad e instálela de tal manera que se obtenga la mejor recepción. (No deje arrollado el cable
- Tenere l'antenna ad anello lontana dall'unità ed installarla in modo da ottenere la migliore ricezione possibile. (Non lasciare avvolto il filo dell'antenna).
- · FM antenna connections and adjustments
- · Conexiones y ajuste de la antena de FM
- Collegamento e regolazione antenna FM

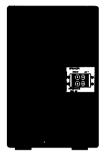

- Use an outdoor antenna when stable reception cannot be obtained with the provided antenna.
- Cuando no sea posible obtener una recepción estable con la
- antena suministrada, utilice una antena exterio
- Utilizzare un'antenna esterna quando non è possibile ottenere una ricezione stabile per mezzo dell'antenna in dotazione

- Do not place the loop antenna on a metal desk or near a TV or personal computer.
- Installing an outdoor antenna requires expertise; we recommend that you consult an audio dealer.
- Install the antenna cord away from the power and speaker cords as these could generate noise. Do not install the loop antenna so that it touches the rear of the unit.

- No coloque la antena de cuadro sobre un escritorio de metal o cerca de un TV o computador personal
- La instalación de una antena externa requiere conocimientos; nosotros le recomendamos que consulte con su agente de audio.
- Coloque el cable de la antena leios de los cordones de alimentación y de los altavoces ya que estos pueden generar interferencia Cuando instale la antena de cuadro no permita que entre en contacto con la parte trasera de la unidad.

- · Non installare l'antenna ad anello su di un tavolo metallico oppure nelle vicinanze di un televisore o di un personal computer
- L'installazione di un'antenna esterna richiede esperienza; si raccomanda di consultare un rivenditore di apparecchiature audio.
- Installare il cavo dell'antenna iontano dal cavo di alimentazione e dai cavi dei diffusori in quanto questi potrebbero generare disturbi. Installare l'antenna ad anello in modo che non tocchi il retro dell'unità

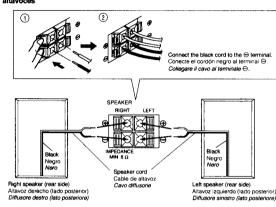

#### Speaker cord connection

Left speaker (front side) Altayoz izquierdo (lado frontal) Diffusore sinistro (lado anteriore)

### Collegamento cavi diffusori

- Speaker set up
   The speaker side with the longer length should be facing the side of the main unit.
- Instalación del altavoz
- El lado más largo del altavoz debe estar apuntando hacia la porción lateral de la unidad principal
- Il lato più lungo dei diffusori deve venire rivolto verso l'unità principale

Conexión de los cordones de los

#### Notes:

- The polarity of the two connected speakers will be the same if the black speaker cords are connected to the ⊖ terminals. If the speakers are connected with polarities reversed, stereo effect and tone will be degraded.
- The speakers of this unit are not magnetically shielded. When they are placed directly on or adjacent to a TV the TV's picture could be distorted. Install the speakers more than 10 cm away from your TV.
- . If the speakers are to be placed away from the main unit, purchase optional speaker cords from an audio store.
- When connecting the speaker cord make sure that the wire core, not the insulating cover, is connected to the speaker terminal. Otherwise. sound cannot be heard.

#### Connection of external audio units

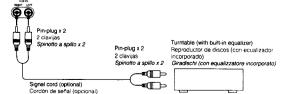

#### Notas:

- La polaridad de los dos altavoces conectados. será la misma si los cordones del altavoz negro están conectados a los terminales ⊖. Si los altavoces están conectados con las polaridades invertidas, el efecto estereolónico y de tono será degradado.
- · Los altavoces de esta unidad no están blindados magnéticamente. Cuando se los coloca directamente o advacentes a un TV la imagen de éste puede ser distorsionada. Instale los altavoces a más de 10 cm. de distancia de su TV.
- Si los altavoces van a ser colocados leios de la unidad principal, adquiera los cordones opcionales para altavoces en una tienda de
- Cuando conecta el cordón del altavoz asegúrese de que el núcleo del cable, y no la cubierta aislante, quede conectado al terminal del altavoz, de lo contrario no se escuchará sonido

# Conexión de unidades externas de

Cavo collegamento (opzionale)

- La polarità dei due diffusori collegati sarà la stessa se i cavi neri dei diffusori vengono collegati ai terminali ⊖. Se le polarità dei diffusori vengono invertite, l'effetto stereo ed i toni degradano.
- I diffusori di quest'unità non sono magneticamente schermati. Se vengono installati vicino o sopra un televisore, l'immagine di quest'ultimo può subire distorsioni. Installarli ad almeno 10 cm di distanza da televisori.
- Per installare i diffusori molto iontano dall'unità principale sono necessari cavi da acquistarsi
- separatamente. Nel collegare i cavi audio, controllare che il conduttore in rame, e non il suo isolante, faccia contatto direttamente con i termi nali. La riproduzione non può altrimenti avere luogo.

### Collegamento di componenti esterni

#### POWER SUPPLY

#### ALIMENTACION

#### ALIMENTAZIONE

#### Connection of AC power cord

. Connect the AC power cord after all other connections have been made.

#### Conexión del cordón de CA

 Conecte el cordón de CA después de haber terminado todas las conexiones.

# Collegamento del cavo di alimentazione

 Collegare il cavo di alimentazione CA dopo aver eseguito tutti gli altri collegamenti.

#### CAUTIONS

- 1. ONLY USE WITH JVC POWER CORD PROVIDED WITH THIS UNIT TO AVOID MALFUNCTION OR DAMAGE TO THE
- 2. BE SURE TO UNPLUG THE POWER CORD FROM THE OUTLET WHEN GOING OUT OR WHEN THE UNIT IS NOT IN USE FOR AN EXTENDED PERIOD OF TIME.

- PRECAUCIONES:

  1. PARA EVITAR FALLAS O DAÑOS EN LA UNIDAD UTILICE EL CORDON DE ALIMENTACION DE JVC SUMINISTRADO CON ESTA UNIDAD.

  2. ASEGURESE DE DESENCHUFAR EL
- CORDON DE ALIMENTACION DEL TOMACORRIENTES CUANDO SALGA O CUANDO NO VAYA A UTILIZAR LA UNIDAD POR UN LARGO PERIODO.

- PRECAUZIONI:

  1. UTILIZZARE SOLO IL CAVO DI ALIMENTAZIONE JVC IN DOTAZIONE A QUESTA UNITA' PER EVITARE DISFUNZIONI O DANNI ALL'UNITA' STESSA
- 2. ACCERTARSI DI SCOLLEGARE IL CAVO DI ALIMENTAZIONE DALLA PRESA DI RETE QUANDO SI ESCE O QUANDO SI PREVEDE DI NON UTILIZZARE L'UNITA' PER UN PERIODO PROLUNGATO.

#### Note:

• When there is a power failure or the AC power cord is disconnected, the timer/clock setting is erased from memory. Reset the clock when the power supply is restored.

· Cuando hay un corte de energía eléctrica o cuando se desconecta el cordón de alimentación CA, el ajuste del temporizador/ reloj se borra de la memoria. Reposicione el reloi cuando se restaure el suministro eléctrico.

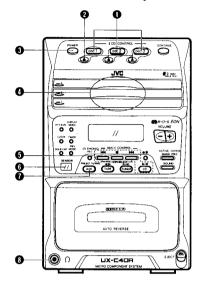

#### Nota:

 Quando si verifica un'internuzione di corrente oppure quando il cavo di alimentazione CA viene scollegato, l'impostazione del timer/ orologio viene cancellata dalla memoria. Reimpostare l'orologio quando l'alimentazione viene riattivata

#### IllumiMagic COMPU PLAY

When approaching the SENSOR section with your hand while the POWER button is set to STANDBY, one touch operation button indicators automatically blink for 10 seconds so that these button indicators can be easily found for sound source selection

If nothing is done while these indicators blink... The blinking indicators go out after 10 seconds. Then, after 2 seconds elapse, IllumiMagic COMPU PLAY will be activated again.

When the same operation is performed with the POWER button set to ON, one touch operation button indicators light for 10 seconds. Select the desired source while the indicators are lif. If a source is not selected while these indicators are lit, all one touch operation button indicators, except that of the mode you preset, will go out.

#### Notes:

- · When your hand approaches a point approx 30 cm (11-13/16") from the SENSOR section the indicators blink (or light)
- Since the sensor detects light reflection, an object other than a hand approaching the sensor can activate IllumiMagic COMPU PLAY. However, operational distance varies depending on the shape or color of object, or brightness of conditions.
- When an object is placed in front of the SENSOR section, the indicator may blink repeatedly. However, this is not a malfunction.
- Take one of the following measures. . Do not place anything in front of the SENSOR section within a distance of 1 m (3.28 ft).
- · Change the direction of this unit
- · Relocate this unit.

#### When the indicator blinking (or lighting) is not required .....

When the POWER button is set to STANDBY, operate as follows.

Press the POWER button while pressing the SOUND button. "OFF" is shown in the display window

(Perform the same operations to activate IllumiMagic COMPU PLAY again. "ON" is displayed in the display window.)

- When the CD tray open/close (♠) button is pressed, the sound source does not switch over, and the CD tray opens or closes. (When the POWER is switched off with the CD tray open, the CD tray closes, then the POWER switches off )
- When switching off the power, be sure to press the POWER button.
- The COMPU PLAY button on the remote control has the same function as that on the main unit. IllumiMagic COMPU PLAY is activated using the main unit only.
- If installed in an audio rack, the rack's from glass plate may impede the unit's SENSOR section function so that IllumiMagic COMPU PLAY may not be activated.

#### IllumiMagic COMPU PLAY

Cuando se aproxima la mano a la sección SENSOR mientras el botón POWER está colocado en STANDBY, los indicadores del botón de operación de un solo toque parpadean automáticamente durante 10 segundos, de tal manera que puedan ser localizados fácilmente para la selección de la fuente de sonido.

Si no se hace nada mientras estos indicadores

Los indicadores parpadeantes se apagan después de transcurridos 10 segundos. Luego después de una pausa de 2 segundos, se activa nuevamente la función lilumiMagic COMPU PLAY.

Cuando se ejecuta la misma operación con el botón POWER colocado en ON, se encienden durante 10 segundos los indicadores del botón de operación de un solo toque. Seleccione la fuente deseada mientras los indicadores están encendidos. Si no selecciona la fuente mientras estos indicadores están encendidos, todos los indicadores de los botones de operación de un solo toque se apagarán, exceptuando el modo que usted programo

#### Notas:

- Cuando aproxima la mano hasta aproximadamente 30 cm. de la sección SENSOR, los indicadores parpadean (o se encienden).
- Como el sensor detecta la reflexión de la luz. un objeto cualquiera que no sea la mano aproximado al sensor puede activar la función IllumiMagic COMPU PLAY. Sin embargo, la distancia de operación varia dependiendo de la forma, del color o del brillo del objeto.
- Cuando se coloca un objeto en frente de la sección SENSOR, el indicador puede parpadear repetidamente. Sin embargo esto no es una falla. Tome una de las siguientes medidas
- No coloque nada en frente del SENSOR remoto a menos de 1 m. de distancia.
- · Cambie la orientación de esta unidad.
- · Reubique esta unidad.

#### Cuando el indicador está parpadeando (o encendido), no es necesario...

Al colocar el botón POWER en STANDBY, proceda de la siguiente manera.

Presione el botón SOUND al mismo tiempo que presiona el botón POWER. En el visor de indicación aparecerá "OFF"

(Ejecute las mismas operaciones para activar otra vez la función IllumiMagic COMPU PLAY. El visor de indicación mostrará "ON").

- Cuando se presiona el botón (▲) de abertura/ cierre del portadisco de CD, la fuente de sonido no cambia, y el portadisco de CD se abre o se cierra (Cuando se desconecta POWER con el
- portadisco de CD abierto, éste se cierra, y luego se desconecta POWER). Cuando se desconecta la alimentación
- asegúrese de presionar el botón POWFR El botón COMPU PLAY del controlador remoto. posee la misma función que el de la unidad principal. Solo es posible activar IllumiMagic
- COMPU PLAY utilizando la unidad principal. Si se lo instala en una platina de audio, el vidrio frontal de la estantería puede impedir que funcione la sección SENSOR de la unidad, v por consiguiente no se podrá activar IllumiMagic COMPU PLAY.

#### Mode IllumiMagic COMPU PLAY

Se si avvicina la mano al sensore di telecomando SENSOR mentre l'interruttore di alimentazione si trova su STANDBY, gli indicatori del funzionamento ad un solo tocco lampeggiano automaticamente per 10 secondi in modo da poter venire facilmente localizzati per la selezione dell'ingresso di segnale da utilizzare

Se mentre essi lampeggiano non viene eseguita alcuna operazione ..

Gli indicatori si spengono dopo circa 10 secondi, quindi, dopo altri due secondi, il modo IllumiMagic COMPU PLAY viene attivato di nuovo.

Se la stessa operazione viene eseguita con il tasto POWER su ON, gli indicatori del modo di funzionamento ad un tocco rimangono accesi nei dieci secondi. Scegliere la sorgente di segnale desiderata ad indicatori accesi. Se una sorgente non viene scelta ad indicatori accesi, tutti gli indicatori di operazioni eseguibili con un solo tasto, salvo quello del modo preselezionato, si spengono.

- · Quando la mano si avvicina ad un punto a circa 30 cm dalla sezione SENSOR, gli indicatori lampeggiano (o si illuminano).
- Dato che il sensore rileva la presenza di luce riflessa, la riproduzione IllumiMagic COMPU PLAY può venire attivata anche da un oggetto che non sia una mano. Tuttavia, la distanza da cui l'attivazione può avvenire varia a seconda della forma e del colore dell'oggetto o delle condizioni di illuminazione.
- Se un oggetto viene posato davanti al sensore di telecomando SENSOR, gli indicatori possono lampeggiare più volte. Questo però non è un quasto. Prendete una delle seguenti
- · Non porre alcun oggetto entro un metro
- davanti al sensore del telecomando. Cambiare l'orientamento dell'unità.
- Spostare l'unità

#### Quando l'indicatore lampeggiante (o illuminato) non è necessario...

Fare quanto segue a tasto POWER su STANDBY,

Premere il tasto POWER insieme a quello SOUND. Il display mostra l'indicazione OFF. (Per riattivare il modo IllumiMagic COMPU PLAY, ripetere la stessa operazione. Il display visualizza l'indicazione ON.)

- Se il tasto apertura/chiusura del piatto portadisco (≜) viene premuto, la sorgente di segnale non cambia ed il piatto, portadisco, si apre o chiude.
- (Se l'unità viene spenta a piatto portadisco aperto, esso si richiude prima che l'alimentazione venga a cessare.)
- Spegnere l'unità solo premendo il tasto POWER. • Il tasto COMPU PLAY del telecomando
- possiede le stesse funzioni di quello omonimo dell'unità principale. Tuttavia il modo IllumiMagic COMPU PLAY viene attivato solo con quello dell'unità principale.
- Se l'apparecchio viene installato su di un rack audio, lo sportello in vetro del rack potrebbe impedire al sensore SENSOR dell'unità di funzionare, rendendo la funzione IllumiMagic COMPU PLAY impossibile.

#### Impostare questa posizione per ottenere il suono di musica jazz dal vivo.

#### Nota:

I modi del suono influenzano solo il suono emesso dai diffusori o dalle cuffie, ma non la registrazione del suono stesso.

Since dirty, damaged and warped CDs may damage the unit, take care regarding the following:

#### 1. Usable CDs

Use CDs with the mark shown.

#### 2. Notes on handling CDs

- Do not touch the reflective recorded surface.
- Do not stick or write anything on the label side.
- Do not bend CDs.

#### 3. Storage

- After removing a CD from the unit, be sure to put it back in its case.
- Do not expose CDs to direct sunlight, high temperatures from a heater, etc., high humidity, or dust.

#### 4. Cleaning CDs

- Before loading a CD, wipe off any dust, dirt or fingerprints with a soft cloth. CDs should be cleaned by wiping radially from the center to the edge.
- Never use thinner, benzine, record cleaner or antistatic spray.

DIGITAL AUDIO

Como los CD sucios, dañados o alabeados pueden dañar la unidad, tome precauciones en relación a lo siguiente:

### 1. CD utilizables

Utilice CD con la marca indicada.

# Notas sobre manipulación de CD No toque la superficie grabada refleiante

- No toque la superficie grabada reflejante.
   No adhiera ni escriba nada sobre el lado
- de la etiqueta.

   No doble los CD

#### 3. Almacenamiento

- Después de extraer un CD de la unidad, asegúrese de colocarlo otra vez en su caja.
- No exponga los CD a la luz directa del sol, altas temperaturas provenientes de un calentador, etc., alta humedad, o polvo.

#### 4. Limpieza de CD

Press to secure the CD.

· Premere per fissare il CD

- Antes de colocar un CD, limpie el polvo, suciedad o huellas digitales, con un paño suave. Los CD deben ser limpiados radialmente desde el centro hacia el borde.
- Nunca utilice solvente, bencina, limpiador de discos o aerosol antiestático.

Dato che CD sporchi, danneggiati o deformati possono danneggiare l'unità, fare attenzione a quanto seque:

#### 1. CD utilizzabili

MANEGGIO DEI CD

Utilizzare solo CD recanti il marchio indicato.

#### 2. Note sul maneggio dei CD

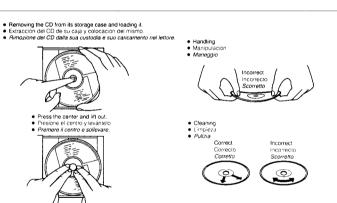

- Non toccare la superficie registrata iridescente.
- Non incollare o scrivere alcunchè sul lato etichettato.
- Non piegare i CD.

#### 3. Conservazione

- Dopo aver rimosso un CD dall'unità, accertarsi di riporto nella sua custodia
- Non esporre i CD alla luce solare diretta, a temperature elevate, ad umidità elevate o a polivere.

#### 4. Pulizia CD

- Prima di inserire un CD, pulire polvere, sporco o impronte digitali con un panno morbido. I CD devono essere puliti strofinando radialmente, dal centro verso il bordo.
- Non utilizzare mai diluente, benzina, liquido pulente per dischi o spray antistatici.

#### Indicadores del número de CD

El indicador rojo debajo del indicador del número de CD se enciende correspondiendo al número de CD que usted seleccionó.

La indicación dentro del respectivo indicador de número de CD gira mientras un CD está siendo reproducido.

Los indicadores muestran si el portadiscos del número de CD que usted seleccionó contiene un CD o no. Cuando no hay ringún CD en el portadiscos, el indicador de número de CD se apaga y la indicación roja permanece encendida.

#### Indicatori numero CD

Il contrassegno rosso sotto all'indicatore del numero del CD si illumina per indicare il numero di CD selezionato.

Durante la riproduzione di un CD, la visualizzazione all'interno del numero di CD rispettivo ruota.

L'indicatore mostra se il piatto corrispondente al numero di CD selezionato contiene o meno un CD. Se non vi fosse alcun CD sul piat to, l'indicatore del numero di CD si spegne ed il contrassegno rosso rimane illuminato.

- Inserire una cassetta come indicato.
- 3. Chiudere il vano portacassetta premendo gentilmente su di esso. Accertarsi di udire lo scatto che indica la sua chiusura.

If the power is switched off while tape is running, it may be impossible to remove the cassette. If this happens, switch the power on again before attempting to remove the cassette.

### Auto tape select mechanism

This unit has an Auto Tape Select mechanism which distinguishes between different types of tape using detection holes in the cassette. After the type of tape has been detected, bias and equalization suitable for the tape are set.

- Cassettes with detection holes
- Metal tape (EQ: 70 µs) . Type IV CrO2 (chrome) tape (EQ: 70 µs) ....
- Cassettes without detection holes: Normal tape (EQ: 120 µs) ...

Si se desconecta la alimentación durante el transporte de cinta, puede que sea imposible extraer el cassette. Si ello ocurre, conecte la alimentación otra vez antes de intentar extraer

# Mecanismo de selección automática de la

Esta unidad posee un mecanismo de selección automática de la cinta que distinque los diferentes. tipos de cinta por medio de orificios de detección en el cassette. Después de haber detectado el tion de cinta, la unidad establece la nolarización. y ecualización adecuadas para la cinta.

- Cassettes con orificios de detección: Cinta de metal (EQ: 70 µs)... Cinta de CrOz (cromo) (EQ: 70 us) ... Tipo II
- Cassettes sin orificios de detección: Cinta normal (EQ: 120 µs)... ogiT.

Se l'alimentazione viene disattivata durante lo scorrimento del nastro, potrebbe essere impossibile rimuovere la cassetta. Se ciò dovesse accadere, riattivare l'alimentazione prima di riprovare a rimuovere la cassetta.

# Meccanismo per la selezione automatica del

Questa unità possiede un meccanismo per la selezione automatica del tipo di nastro che è in grado di rilevare automaticamente il tipo di nastro utilizzato per mezzo dei fori appositi sulla cassetta. I Ina volta rilevato il tipo di nastro, la polarizzazione e l'equalizzazione adatte a tale tipo di nastro vengono impostate automaticamente

- Cassette con fori di identificazione:
- Nastro Metal (EQ: 70 us) .... Tipo IV Nastro CrO2 (al cromo) (EQ: 70 µs) .... Tipo II
- · Cassette senza fori di identificazione: Nastro normale (EQ: 120 us) .... Tipo I

 Quando l'alimentazione si trova nel modo STANDBY, oppure quando viene selezionato un altro modo (TAPE, CD o AUX), l'ultima frequenza sintonizzata viene memorizzata Quando l'alimentazione viene riattivata e si preme il tasto TUNER/BAND. l'unità si sintonizza su quella stessa frequenza

### Sintonizzazione con preselezione automatica (utilizzando l'unità di

Questa funzione esegue la scansione della banda attuale, rilevando così le frequenze utilizzate per la trasmissione dei segnali, e memorizza automaticamente le prime 30 frequenze FM e le prime 15 frequenze AM (MW/

 Premere il tasto AUTO PRESET. Le frequenze delle stazioni possono essere memorizzate automaticamente in ordine di frequenza crescente. (30 stazioni in FM e 15 stazioni in AM (MW/LW).)

#### Preselezione delle stazioni (utilizzando l'unità di telecomando)

30 stazioni per la banda FM e 15 stazioni per la banda AM (MW/LW) possono essere preselezionate nel modo sequente:

 Esempio: (Per preselezionare una stazione FM che trasmette sui 103,5 MHz nel tasto di preselezione numero "15").

Presione el botón TUNER/BAND Seleccione la banda de FM utilizando el boton TUNER/BAND

Sintonice la estación deseada

Presione el botón "+10" de presintonización y luego el "5" durante más de 2 segundos. (Cuando el "15" parpadea en la indicación de estación presintonizada, ésta ha sido registrada)

Premere il tasto TUNER/BAND.

 Selezionare la banda FM utilizzando il tasto TUNER/RAND Sintonizzare la stazione desiderata

O Premere il tasto di preselezione "+10" e quindi quello "5" per oltre 2 secondi. (Quando la cifra "15" lampeggia sul display di preselezione, la stazione è preselezionata).

- · Repeat the above procedure for each of the other stations, using a different preset button
- · Repeat the above procedure for the other
- To change preset stations Perform step 3 above after tuning to the required station.

- The previous stored station is erased when a new station is stored, because the new station's frequency replaces the previous frequency in memory
- When listening to an AM (MW/LW) broadcast, noise may be heard if the remote control unit ie ueod
- All preset stations will be erased when the power cord is disconnected or a power failure occurs for more than 24 hours. In such cases, store the stations again.

#### Preset tuning

• The stations must be preset before this operation can be performed

#### (Using the main unit)

- Press the TUNER/BAND button
- 2 Select the band using the TUNER/BAND (3) Press the PRESET TUNING button to select
- the required preset station

#### (Using the remote control unit) Press the TUNER/BAND button

- 2 Select the band using the TUNER/BAND
- ③ Press the required preset station buttons (No. 1 - No. 10 and +10).
- The preset station number and frequency corresponding to the button pressed are

#### Using the antennas

Connect the provided FM feeder antenna (see page 6). AM (MW/LW): Adjust the position of AM (MW/LW) loop antenna.

#### RDS (Radio Data System)

#### Using the RDS (Radio Data System) to Receive FM Stations

RDS allows FM stations to send additional signals with their regular programme signals. For example, the stations send their station names and information about what type of programmes they broadcast, such as sports or music, etc. This unit can receive the following types of RDS

signals: PS (Programme Service):

shows commonly known station names. PTY (Programme Type): shows types of broadcast programmes

RT (Radio Text): shows text messages the station sends. TA (Traffic Announcement):

shows traffic announcements being broadcast.

- Repita el procedimiento de arriba para cada una de las otras estaciones, utilizando un botón de presintonización diferente para cada estación
- Repita el procedimiento de arriba para la otra
- · Cambio de estaciones presintonizadas Ejecute el paso 3 de arriba después de sintonizar la estación deseada

- La estación previamente almacenada se horra cuando se almacena otra estación, ya que la frecuencia de la nueva estación reemolaza la trecuencia anterior en memoria
- Cuando escucha una radiodifusión de AM (OM/OL), es posible que se escuche ruido si se utiliza la unidad de control remoto.
- Todas las estaciones presintonizadas se borran cuando se desconecta el cordon de alimentación u ocurre un corte de energía de más de 24 horas. En tales casos almacene las estaciones otra vez.

#### Presintonización

· Las estaciones deben ser presintonizadas antes de que se pueda ejecutar esta operación

#### (Utilizando la unidad principal)

- Presione el botón TUNER/BAND.
- Seleccione la banda utilizando el botón TUNER/BAND
- Presione el botón PRESET TUNING para. seleccionar la estación presintonizada

#### (Utilizando la unidad de control remoto) Presione el botón TUNER/BAND

- Seleccione la banda utilizando el botón TUNER/BAND
- ③ Presione los botones (No. 1 No. 10 y + 10) de la estación presintonizada deseada
- En el visor aparecen el número de estación presintonizada y la frecuencia correspondiente al botón presionado

#### Utilización de antenas

Conecte la bajada de antena FM suministrada (ver nágina 6) AM (OM/OL): Ajuste la posición de la antena de cuadro de AM (OM/OL).

#### RDS (Sistema de datos por radio)

#### Uso de RDS (Sistema de Datos por Radio) para recibir estaciones de FM

El RDS permite que las estaciones de FM envien señales adicionales con las señales de los programas normales. Por ejemplo, las estaciones envian sus nombres, e información acerca del tipo de programas que difunden tales como deportes o música, etc

Esta unidad puede recibir los siguientes tipos de señales RDS:

#### PS (Servicio de programación): muestra nombres de radiodifusoras conocidas PTY (Tipo de programa):

muestra los tipos de programas emitidos. RT (Texto por radio):

muestra mensajes textuales que la estación

#### TA (Anuncio de tráfico):

muestra anuncios de tráfico que están siendo emilidos

- Ripetere la procedura sopraindicata per ciascuna stazione desiderata utilizzando onni volta un tasto di preselezione diverso.
- Ripetere la procedura sopradescritta per l'altra banda.

#### Per cambiare le stazioni preselezionate Eseguire la fase () dopo aver sintonizzato la nuova stazione desiderata

- Quando si memorizza una nuova stazione, la stazione memorizzata in precedenza viene cancellata in quanto la frequenza della quova stazione sostituisce quella memorizzata in
- Quando si ascolta una trasmissione AM (MW) LWI si possono udire dei disturbi se viene utilizzato il telecomando.
- Tutte le stazioni preselezionate vengono cancellate se il cavo di alimentazione viene cancellato oppure se si verifica un'interruzione di corrente per più di 24 ore. In tali casi eseguire nuovamente la memorizzazione delle stazioni.

#### Sintonizzazione stazioni preselezionate

· Le stazioni devono essere preselezionate prima di poter eseguire questa operazione

#### (Uso dell'unità principale)

- Premere il tasto TUNER/BAND.
- 3 Scegliere la banda di frequenza col tasto
- (1) Premere il tasto PRESET TUNING per scegliere la stazione preselezionata desiderata

#### (Utilizzando l'unità di telecomando)

- Premere il tasto TUNER/BAND.
- Selezionare la banda utilizzando il tasto TUNER/BAND.
- (i) Premere il tasto della stazione preselezionata desiderata (No. 1 - No. 10, +10)
- Il numero della stazione preselezionata e la frequenza corrispondenti al tasto premuto vengono visualizzati.

#### Uso delle antenne

Collegare l'antenna FM a piattina in dotazione (vedi pag. 6).

AM (MW/LW): Regolare la posizione dell'antenna AM (MW/LW) ad anello

#### Sistema dati radio (RDS)

#### Uso del sistema RDS (sistema dati radio) per ricevere stazioni FM

Il sistema RDS permette alle stazioni FM di trasmettere segnali addizionali oltre ai normali segnali dei programmi regolari. Per esempio, le stazioni possono trasmettere il nome della stazione ed informazioni riguardanti il tipo di programma come sport musica ecc.

L'unità è in grado di ricevere i seguenti tipi di seanale RDŠ

### PS (Servizio Programma):

per i nomi di stazioni comunemente noti, PTY (Tipo Programma):

per il tipo di programma. RT (Testo Radio): per annunci sul traffico.

per messaggi trasmessi dalla stazione TA (Annuncio Traffico):

What information can RDS signals provide? The display shows RDS signal information that the station sends

# To show the RDS signals on the display: Press the DISPLAY MODE button while listening

Each time you press the button, the display changes to show information in the following order

#### PS (Programme Service):

While searching, "PS" appears, then station name is displayed. "NO PS" appears if no signal

#### PTY (Programme Type):

While searching, "PTY" appears, then broadcast programme type is displayed. "NO PTY" appears if no signal is sent.

#### RT (Radio Text): While searching, "RT" appears, then a text message sent by the station is displayed. "NO

RT" appears if no signal is sent. Station Frequency: Station frequency (non-RDS service)

- . If searching finishes at once, "PS" and "PTY"
- will not appear on the display.

  If you press the DISPLAY MODE button while listening to an AM (MW/LW) station, the display only shows station frequency.
- RDS is not available for AM (MW/LW) broadcasts.

#### On characters displayed

- When the display shows PS, PTY or RT signals:
- The display shows upper case letters only.
  The display cannot show accented letters: For example, "A" may represent accented "A's" like "Á, Â, Ã, À, Ä and Å

# ¿Qué información puede suministrar la señal

El visor muestra la información de señales RDS que la estación envia

Para visualizar señales RDS en el visor: Presione el botón DISPLAY MODE mientras escucha una estación de FM.

Cada vez que presione el botón, la indicación cambia mostrando información en el siguiente

#### → PS → PTY → RT → Frequency Frequenza

#### PS (Servicio de programación):

Mientras busca, "PS" aparece, luego el nombre de la estación es indicado. "NO PS" aparece si no se radiodifunden señales.

#### PTY (Tipo de programa):

Mientras busca. "PTY" aparece, luego se visualiza el tipo de programa radiodifundido. NO PTY" aparece si no se radiodifunden

#### RT (Texto por radio):

Mientras busca, "RT" aparece, luego el mensaje de texto enviado por la estación es visualizado "NO RT" aparece si no se radiodifunde señal Frecuencia de estación:

Frecuencia de estación (servicio no BDS)

- Si la búsqueda termina súbitamente, "PS" y "PTY" no aparecerán en el visor.
- Si usted presiona et botón DISPLAY MODE mientras escucha una estación de AM (OM/ OL), la indicación solo muestra la frecuencia de la estación
- RDS no está disponible para radiodifusiones de AM (OM/OL).

#### Sobre los caracteres indicados

- Cuando el visor muestra señales PS. PTY o RT: · El visor muestra letras en mayúscula
- · El visor no puede mostrar letras acentuadas: Por ejemplo, "A" acentuada puede aparecer como "A, Â, Ā, Ā, Ā, Ā, y Å".

Per ricercare un programma per mezzo dei codici PTY

Uno dei vantaggi del sistema RDS è che esso permette di localizzare programmi di un tipo particolare specificando il codice PTY.

Per ricercare un programma utilizzando i codici PTY o TA:

O Premere una volta il tasto PTY mentre si ascolta una stazione FM La visualizzazione sul display si alterna tra "PTY" e "SELECT"

Selezionare il codice PTY utilizzando i tasti I◄◄/▶▶ entro 10 secondi. Ogni volta che un tasto viene premuto il display visualizza una categoria nell'ordine

 $NEWS \leftrightarrow AFFAIRS \leftrightarrow INFO \leftrightarrow SPORT \leftrightarrow$ EDUCATE ↔ DRAMA ↔ CULTURE ↔ SCIENCE WARIED LYPOP M - ROCK  $M \leftrightarrow M.O.R.M \leftrightarrow LIGHT M \leftrightarrow CLASSICS$ → OTHER M → TRAFFIC → NEWS

Premere nuovamente il tasto PTY entro 10 secondi. Durante la ricerca, la visualizzazione sul

display si alterna tra "SEARCH" ed il codice PTY selezionato.

L'unità ricerca 30 stazioni preselezionate, si ferma quando trova una stazione della categoria selezionata e quindi si sintonizza stabilmente su tale stazioni

Per continuare la ricerca dono la prima stazione, premere nuovamente il tasto PTY mentre le indicazioni sul display lampeggiano. Se non viene trovato alcun programma l'indicazione "NOT FOUND" annare sul display

Per interrompere la ricerca in qualsiasi momento

Utilizzare un qualsiasi tasto o comando del sintonizzatore per interrompere la ricerca

3 Presione otra vez el botón EON dentro de los 10 segundos para sintonizar el tipo de programa seleccionado. Se encenderá la indicación del tipo de programa seleccionado y la unidad ingresa en el modo de espera EON.

· La luz indicadora EON se enciende cuando se sintoniza una estación que suministra información FON

Caso 1: Si no hay un estación emitiendo el tipo de programa que usted ha seleccionado La estación emisora que está siendo escuchada continuará siendo escuchada

Cuando una estación comienza la emisión de un programa que usted ha seleccionado, esta unidad conmuta automáticamente a la estación. El indicador EON comienza a parpadear.

Cuando el programa termina, esta unidad regresa a la estación actualmente seleccionada, pero permanece en el modo de espera FON

#### Caso 2: Si hay una estación que está emitiendo el tipo de programa que usted ha seleccionado

Esta unidad sintoniza la estación que emite e El indicador EON comienza a parpadear.

Cuando el programa termina, esta unidad regresa a la estación actualmente seleccionada, pero permanece en el modo de espera EON.

#### Per selezionare un tipo di programma

 Premere due volte il tasto FON mentre si ascolta una stazione FM Il display alterna tra "EON" e "SELECT".

Selezionare il tipo di programma entro 10 secondi con i tast I---

Il display visualizza i tipi di programma nell'ordine sequente:

TA-Annunci sul traffico NEWS: Notizie

INFO: Programmi su servizi sanitari previsioni del tempo, ecc.

OFF: Funzione EON disattivata

 Premere nuovamente il tasto EON entro 10 secondi per impostare il tipo di programma selezionato. L'indicatore del tipo di programma selezionato si illumina e l'unità entra nel modo standby della funzione EON.

· L'indicatore EON si illumina quando ci si sintonizza su una stazione che fornisce informazioni EON.

Caso 1: Se non vi è alcuna stazione che trasmette il tipo di programma selezionato Si continuerà ad udire la stazione correntemente ricevuta

Quando una stazione inizia la trasmissione del programma selezionato, l'unità viene commutata automaticamente su tale stazione L'indicatore EON inizia a lampeggiare.

Quando il programma termina, l'unità ritorna alla stazione correntemente selezionata ma rimane nel modo di attesa EON.

Caso 2: Se vi è una stazione che trasmette il tipo di programma selezionato L'unità si sintonizza sulla stazione che trasmette

tale programma. L'indicatore EON inizia a lampeggiare.

nel modo di attesa EON.

Quando il programma termina, l'unità ritorna alla stazione correntemente selezionata ma rimane

- When the EON is being operated (i. e. the selected programme type is being received from the broadcast station) and if the DISPLAY MODE, ₩◄/▶▶ or PRESET TUNING is pressed, the station will not switch back to the current selected station even after the programme ends. The programme type indicator remains in the display, indicating that the EON is in standby mode
- When the EON is in standby mode and a radio broadcast is being recorded, be careful because the EON may be activated and a different programme than the intended one may be recorded. When the EON mode is not required, release the EON mode.
- When the alarm signal is detected by EON. the station broadcasting the alarm is received with priority, at which time the EON indicator blinks: "ALARM" is not displayed.

#### Caution

RECORDING

When the sound alternates intermittently between the station tuned in by the EON function and the current selected station, cancel the EON mode. This does not constitute malfunction of the unit.

- Si EON está en el modo de espera y el conmutador de función (CD, TAPE, AUX) es cambiado o se desconecta la alimentacion el modo EON es desactivado. Cuando la banda es sintonizada en AM (OM/OL), EON no se activa. Cuando la banda es sintonizada. en EM otra vez. EON se activa en el modo de espera
- · Cuando EON está en operación (ej.: el tipo de programa seleccionado está signdo recibido desde una estación radioemisora) v si se presiona DISPLAY MODE. I◄◄/▶▶ o PRESET TUNING, la estación no regresará a la estación seleccionada actualmente aún cuando el programa termine. El indicador de tipo de programa permanece en el visor, indicando que EON está en el modo de espera
- Cuando EON está en el modo de espera v se está grabando una emisión de radio, tome precauciones porque EON puede ser activado y puede grabar un programa diferente que el que se planea grabar Cuando no es necesario usar el modo EON, desactive el modo FON.
- Cuando la señal de alarma es detectada por FON la estación emitiendo la alarma es recibida con prioridad, y en este momento el indicador EON parpadea; "ALARM" no es

#### Precaución

GRABACION

Cuando el sonido alterna intermitentemente entre la estación sintonizada por medio de la función EON y la estación actualmente seleccionada, desactive el modo EON. Esto no es una falla de la unidad.

- · Se il sistema EON si trova nel modo di attesa ed il modo (CD, TAPE, AUX) viene cambiato, oppure se l'alimentazione viene disattivata, il modo EON viene cancellato. Quando la banda è impostata su AM (MW/LW) il sistema EON non viene attivato. Quando la banda viene reimpostata su FM, il sistema EON viene impostato nel modo di attesa.
- · Quando il sistema EON viene utilizzato (cioè quando il tipo di programma selezionato viene ricevuto), se i tasti DISPLAY MODE, ▶► o PRESET TUNING vengono premuti, l'unità non ritorna alla stazione correntemente selezionata anche se il programma termina. L'indicatore del tipo di programma rimane visualizzata per indicare che il sistema EON si trova nel modo di attesa.
- Quando il sistema EON si trova nel modo di attesa e si sta registrando una stazione radio fare attenzione poichè la funzione EON potrebbe essere attivata e potrebbe venire registrato un programma diverso desiderato Cancellare il modo EON quando esso non è necessario.
- Quando un segnale di emergenza viene rilevato dal sistema EON la trasmissione di emergenza viene ricevuta con priorità e l'indicatore EON lampeggia; l'indicazione "ALARM" non viene visualizzata

#### Attenzione:

Quando l'audio si alterna tra la stazione sintonizzata dalla funzione EON e la stazione correntemente sintonizzata, cancellare il modo EON. Ciò non rappresenta una disfunzione

#### REGISTRAZIONE

spegnimento automatico e riproduzione di un CD per la riproduzione col timer

However, when broadcast recention is selected for both sleep timer operation and timer playback, the station you heard at night will be tuned to the following morning.

Sin embargo, cuando se selecciona la recención de radiodifusión tanto para el temporizador de desconexión como para la reproducción por tempor zador, la estación que usted escucha durante la noche sera sintonizada a la mañana siquiente.

Quando si salaziona la ricazione di trasmissioni sia per lo spegnimento automatico che per la riproduzione coi timer, comunque, la stazione sintonizzata per lo spegnimento automatico viene sintonizzata anche per la riproduzione col timer.

#### MAINTENANCE

#### Cleaning is important!

When the tape is running, magnetic powder and dust naturally accumulate on the heads capstan and pinch roller. When they become

- Sound quality deteriorates
- . The output sound level drops.
- · Previously recorded tape is not completely erased
- Recording is not performed satisfactorily. Therefore, you should clean the heads, etc. after every 10 hours of use for optimal recording conditions

#### Cleaning the heads, capstan and pinch roller Open the cassette holde

Clean the heads, ninch roller and canstan. For effective cleaning, use a cleaning kit available from an audio store.

After cleaning, be sure that the cleaning fluid has dried completely before loading a cassette.

#### MANTENIMIENTO

#### ¡La limpieza es importante! Cuando la cinta está girando, el poivo magnético y el polvo se acumulan naturalmente on las cabezas, cabrestante y rodillo de presión. Cuando estén muy sucios

- · La catidad de sonido se deteriora. El nivel de salida de sonido se reduce
- · Las cintas grabadas no se borran completamente
- La grabación no se realiza satisfactoriamente Por lo tanto, usted debe limpiar las cabezas etc después de cada 10 horas de uso para obtener condiciones de grabación optimas.

#### Limpieza de las cabezas, cabrestante y rodillo de presión Abra el portacassette

Limpie las cabezas, rodillo de presión y cabractanta

Para una limpieza efectiva, utilice un conjunto de limpieza disponible en cualquier tienda de

Desoués de la limpieza, asegúrese de que el liquido para la misma se hava secado completamente antes de colocar un cassette

#### MANUTENZIONE

#### La pulizia è estremamente importante! Quando il nastro scorre, polvere magnetica e sporco si accumulano sulle testine, sui capstan e sui rullini. Quando essi sono troppo sporchi...

- La qualità del suono si deteriora.
- Il livello in uscita cala.
- Registrazioni precedenti non vengono cancellate completamente.
- · La registrazione non viene eseguita in modo insoddistacente.

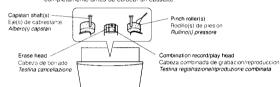

Le testine, ecc., devono perciò essere pulite ogni 10 ore di uso per mantenere condizioni di funzionamento ottimali

#### Pulizia di testine, capstan e rullini pressori Aprire il vano della cassetta

Pulire testine, rullini pressori e capstan

Per pulire in modo efficace, utilizzare un corredo di pulizia disponibile presso i negozi specializzati

Dopo la pulizia accertarsi che il liquido pulente si sia asciugato completamente prima di inserire una cassetta.

#### Cautions:

 Keep magnets and metallic objects away from the head

If the head becomes magnetized, noise will increase and the sound will deteriorate Demagnetize the head every 20-30 hours of use with a head eraser (available from an audio store). (When demagnetizing the head, the POWER button should be set to STANDBY)

2. Do not use anything other than alcohol for cleaning Thinner and benzine will damage the rubber

### Precauciones:

1. Mantenga los imanes y los objetos metálicos leios de la cabeza.

Si la cabeza se magnetiza, el ruido aumentará y el sonido se deteriorará. Desmannetice la cabeza cada 20-30 horas de uso con un desmagnetizador de cabezas (disponible en cualquier tienda de audio). (Cuando desmagnetiza la cabeza, el botón POWER deberá estar colocado en STANDBY).

Para limpieza no utilice ningún otro producto que no sea alcohol. El diluvente y la bencina dañarán el rodillo

de presión de goma.

### Precauzioni

1. Non avvicinare magneti o oggetti metallici

Se la testina si dovesse magnetizzare, i disturbi aumentano ed il suono si deteriora Smagnetizzare la testina ogni 20-30 ore di utilizzo con un dispositvo apposito (disponibile presso un negozio specializzato). (Quando si smagnetizza la testina, il tasto POWER deve essere impostato su STANDBY).

2. Utilizzare solo alcool per la pulizia. Diluente o benzina danneggiano la gomma del rullini pressori.

#### TROUBLESHOOTING

# is not always

What appears to be trouble serious. First make sure....

- When abnormal operation occurs. Unplug the AC power cord from the AC outlet Then reconnect and switch the power ON.
- · Power cannot be turned on. \* Is the power cord unplugged?
- . No sound from the speakers. Are headphones connected?

### DETECCION DE PROBLEMAS Lo que parece ser un problema no siempre es grave. Primero asegurese.....

# Cuando hay fallas de funcionamiento.

- Desenchufe el cordón de alimentación CA del. tomacorriente de CA. Luego reconéctelo y conecte la alimentación
- No es posible conectar la alimentación. \*¿Está el cordón de alimentación desenchufado?
- No sale sonido de los altavoces.
- ¿Están los audifonos conectados?

### DIAGNOSTICA

#### Quanto sembra essere un problema spesso non è nulla di serio. Accertarsi prima di tutto...

- · Se l'unità non funziona normalmente.
- Scollegare il cavo di alimentazione alla presa di corrente, quindi ricollegarlo e riaccendere

 $\leq$ 

C40R

B/E/EN/G

- · L'alimentazione non può essere attivata.
- \* Il cavo di alimentazione è scollegato? I diffusori non producono alcun suono.
- \*Le cuffie sono collegate?

YSTEM

#### (CD Player Section)

26

(No. 1979)

- . The CD player does not play. \* Is the CD upside down?
- \* Is the CD dirty?
- · A certain portion of the CD does not play correctly.
- CD playback is not performed when the CD CONTROL button is pressed.
- s program mode engaged?
- When the operation stops.
   Switch the power OFF (STANDBY) and ON.

- (Cassette Deck Section)

  Playback sound is at a very low level. ' Is the head dirty?
- The ●/## button does not function. \* Have the safety tabs of the cassette been broken off?

#### (Tuner Section)

- · Reception is noisy.
- \* Try adjusting the antenna

#### (Timer Section)

- Timer operation does not start.
- 'Is the current time set correctly?'
  'Is the timer mode indicator (例) displayed?

#### (Remote Control)

SPECIFICATIONS

- · Remote control is impossible \*Are the batteries in the remote control
- exhausted? 'Is the remote SENSOR section exposed to bright light (direct sunlight, etc.)?

Heads

Before making an important recording, be sure to make a test recording first to check that the deck, etc. is working correctly.

#### (Sección del reproductor de CD)

- · El reproductor de CD no funciona. ¿Está el CD invertido?
- · Cierta porción de un CD no es correctamente reproducida.
- Está el CD ravado
- La reproducción del CD no se realiza cuando el botón CD CONTROL está presionado
- ¿Está el modo de programa activado?
- Cuando la operación para. Desconecte la alimentación OFF (espera) y conéctela ON otra vez

#### (Sección la platina de cassette)

- El sonido de reproducción tiene un nivel muy baio.
- ¿Está la cabeza sucia?
- No funciona el botón ●/II.
- ¿Se han extraido las lengüetas de seguridad del cassette?

#### (Sección del sintonizador)

· La recepción es ruidosa Intente aiustar la antena

- La operación por temporizador no se activa.
- ¿Está la hora actual correctamente ajustada? ¿Está el indicador (②) de modo de temporizador indicado?

#### (Controlador remoto)

- · El controlador remoto no funciona.
- ¿Están las pilas del controlador remoto agotadas?
- ¿Está la sección remoto SENSOR expuesta a una luz brillante (luz solar directa, etc.)?

Antes de efectuar una grabación importante, asegúrese de hacer una grabación de prueba para verificar que la platina, etc. esté funcionando correctamente:

#### (Sezione lettore CD)

- Il lettore CD non riproduce. \* II CD è rovescio?
- ' II CD è sporco?
- Una parte del CD non viene riprodotta correttamente II CD è oraffiato?
- La riproduzione di CD non ha luogo dopo che il tasto CD CONTROL viene premuto. \* Il modo di programmazione è attivato?
- Se l'unità si ferma.
- Spegneria (STANDBY) e riaccenderla.

#### (Sezione registratore a cassette)

- Il livello del suono riprodotto è molto
- La testina è sporca?
- II tasto ●/II non funziona. Le linquette di protezione della registrazione della cassetta sono state rimosse?

#### (Sezione sintonizzatore)

· La ricezione è disturbata 1 Provare ad orientare l'antenna

#### (Sezione timer).

- Il funzionamento col timer non si avvia.
- L'orario corrente è impostato in modo corretto? \* Il modo del timer (🕘) viene visualizzato?

- Il funzionamento col telecomando è impossibile
- \*Le sue batterie sono scariche?
- \* Il sensore di telecomando SENSOR è colpito da luce (solare o artificiale) intensa?

Prima di eseguire registrazioni importanti, accertarsi di eseguire una registrazione di prova per essere certi che il funzionamento del registratore, ecc., sia corretto

CD tray select switch board

Power sapply board

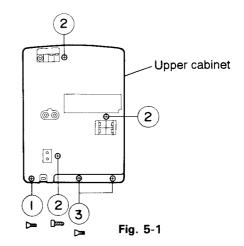

Fig. 4-4

# 5. Removal of Main Parts

# ■ Removing the upper cabinet

(Figs. 5-1 to 5-4)

- 1. Remove six screws (① x 1, ② x 3, ③ x 2) on the rear of the main unit which secure the upper cabinet.
- 2. Remove four screws ④ on the right and left sides of the main unit which secure the upper cabinet.

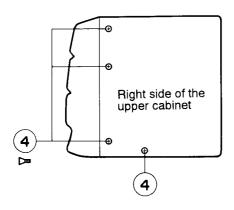

Fig. 5-2

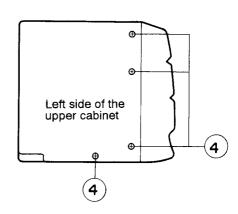

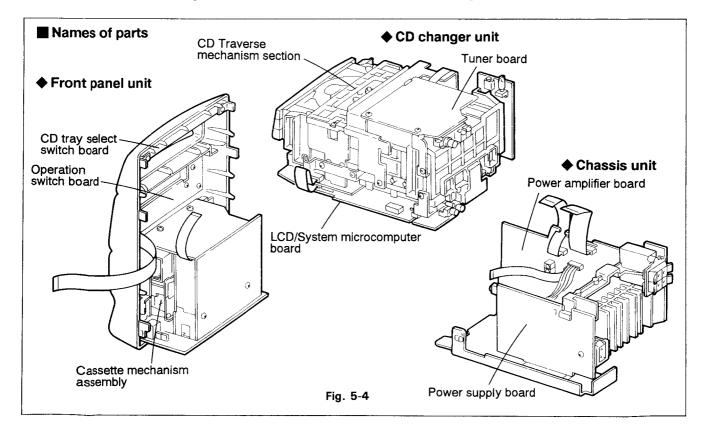

Fig. 5-3

# ◆ Removing the CD changer unit and chassis unit (Figs. 5-5 and 5-6)

- Face the main unit from the right side. Remove the card wire coming from the front panel assembly from connector CN702 on the LCD/System microcomputer board (Fig. 5-5).
- 2. Remove the card wire coming from connector CN712 on the mechanism control board from connector CN781 on the LCD/System microcomputer board (Fig. 5-5).
- Face the main unit from the left side. Remove the card wire coming from connector CN32 on the power amplifier board from connector CN706 on the LCD/System microcomputer board (Fig. 5-6).
- 4. Remove the card wire coming from connector CN31 on the power amplifier board from connector CN708 on the LCD/System microcomputer board (Fig. 5-6).
- Remove the screw (A) securing the heat sink to remove the ground wire from the LCD/System microcomputer board assembly (Fig. 5-11).
- 6. Remove the CD changer unit.
- 7. Remove the card wire coming from connector CN33 of the power amplifier board from connector CN321 on the Rec amplifier board (Fig. 5-5).
- 8. Insert a flat driver into the fittings at sections A and B on the right and left sides of the main unit to remove the front panel assembly and the bottom chassis (Fig. 5-5, 5-6).
- Following these procedures separates the main unit into the CD changer unit, front panel unit and chassis unit.

# Front panel unit section

# ◆ Removing the cassette mechanism assembly (Fig. 5-7).

Remove four screws ⑤ and ⑥ securing the cassette mechanism assembly from the front panel unit.

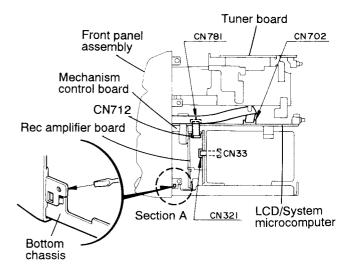

Fig. 5-5

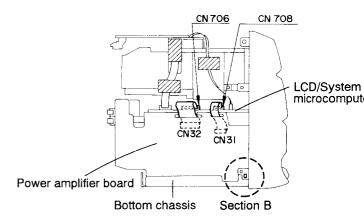

Fig. 5-6

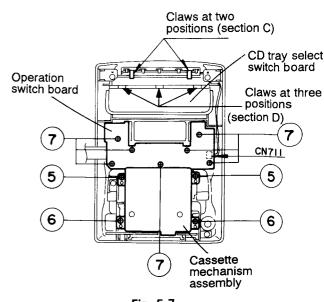

Fig. 5-7

# ♦ Removing the CD tray select and operation switch boards (Figs. 5-7 to 5-9)

- 1. Remove seven screws ⑦ securing the operation switch board (Fig. 5-7).
- 2. Remove the 2 pin connector coming from the CD tray select switch board from connector CN711 on the operation switch board (Fig. 5-7).
- 3. Release two claws in section C and three claws in section D as shown in Fig. 5-8 and remove the CD tray select switch board by pressing it from inside to the front.
- 4. Remove three screws (8) securing the CD tray select switch board assembly (Fig. 5-9).
- 5. Release five claws in section E which secure the CD tray select switch board (Fig. 5-9).
- 6. Remove the CD select switch board by shifting two claws in section F in the direction shown with the arrows (Fig. 5-9).

# ■ Chassis unit section

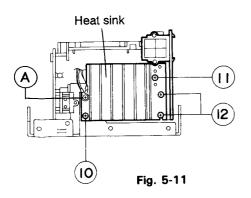

# ♦ Removing the power supply board (Fig. 5-10).

- While pushing in the claws in sections G and H on the right and left of the holder, lift and remove the holder securing the power supply board and power amplifier board from the power supply section (Figs. 5-10a and 5-10b).
- 2.Remove four screws (9) securing the power transformer.

# ◆ Removing the power amplifier board

(Fig. 5~11).

Remove the screw ® securing the power amplifier board. To remove the heat sink, remove three screws ® and ® as well.

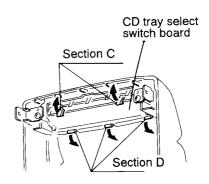

Fig. 5-8

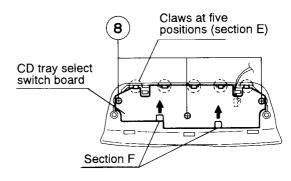

Fig. 5-9

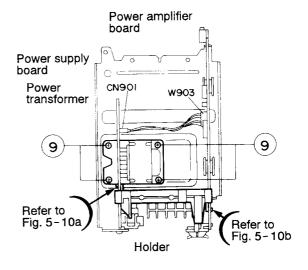

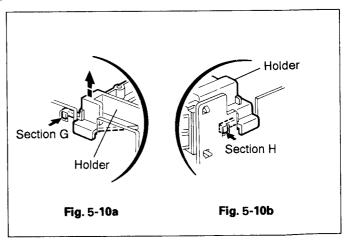

Fig. 5-10

# ■ CD changer unit section

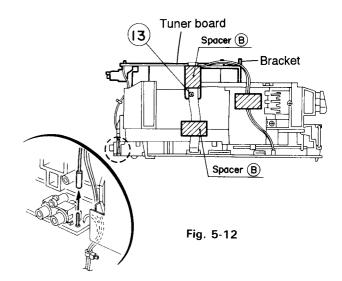

# ◆ Removing the tuner board

(Figs. 5-12 and 5-14)

After dismounting two spacers (8) in advance, remove three screws (3) securing the tuner board assembly. Then, remove the card wire coming from connector CN705 on the LCD/microcomputer board from connector CN1 on the tuner board (Fig. 5 – 14). When removing only the tuner board, remove two screws (4) as shown in Fig. 5-14.

# ◆ Removing the CD tray fitting (Fig. 5-15)

- Pull the lock levers in the direction shown with the arrow to release the locks for the CD trays. Pull out the CD trays one by one starting with the DISC 1 tray.
- Remove the CD tray fitting by lifting it up while pulling it toward you from below and disengage the claws as shown in the figure.
- 3. Perform the same procedure for DISC 2 and DISC 3.

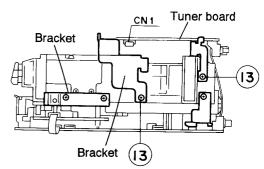

Fig. 5-13

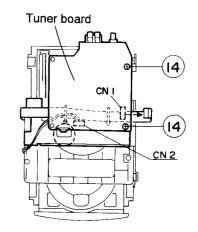

Fig. 5-14

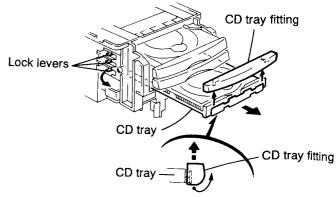

Fig. 5-15

# ◆ Removing the LCD/System microcomputer and AUX IN jack boards (Figs. 5-16 and 5-17).

- 1. Remove the soldered section of the shield case from the rear of the CD traverse mechanism and remove two screws (1) (Fig. 5-16).
- 2. Remove the screw (6) securing the AUX IN jack board. Then, remove connector CN722 from connector CN721 on the LCD/System microcomputer board (Fig. 5-16).
- Remove the card wire coming from the CD mechanism from connector CN601 on the LCD/System micro computer board.
- Remove two screws securing the LCD/System microcomputer board from the front of the CD traverse mechanism (Fig. 5-17).
- 5. Release three claws (I, J, K) securing the LCD/System microcomputer board and shift and lift up the whole board toward you for removal (Fig. 5-16).

# ◆ Removing the pre-amplifier, bias and mechanism control boards (Figs. 5-18 and 5-19).

- Turn over the cassette mechanism section and remove two screws ® securing the Rec amplifier board. Pull and remove connector CN324 from the mechanism control board and CN329 from the Rec bias board assembly.
- Remove the screw @ securing the Rec bias board assembly and the flexible wire coming from the rec/play head from connector CN301.
- Remove the Rec bias board assembly from two claws in section L.
- Remove two screws ② securing the equalizer amplifier board and remove connector CN302 from CN352 (Fig. 5-19).
- Remove the screw @ securing the Rec bias board then remove the Rec bias board from the Print circuit board holder (Fig. 5-19).

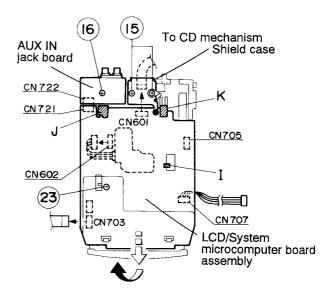

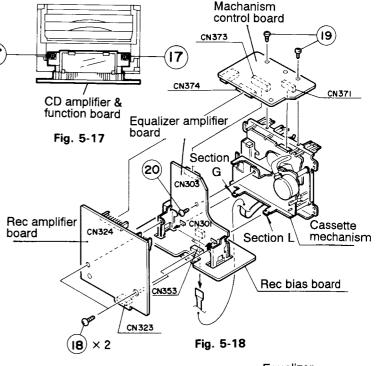

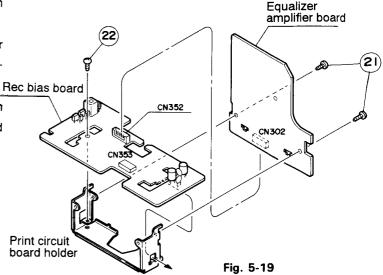

Fig. 5-16

# How to disassemble the cassette mechanism

# ◆ Head mount assembly (See Figure 5-20)

- 1. Remove three scrwes ① retaining the from the cassette mechanism head mount assembly mounting.
- 2. Remove the head wire holder from the chassis.
- ★ After replacing the head mount, adjust the angle of the head.
- How to engage the gear section of the direction lever with the head mount gear during assembly is illustrated on the right.

# ◆ Pinch roller assembly (See Figure 5-21)

# Right

After opening the pinch roller assembly retaining tab (A) outwards, pull out the pinch roller assembly.

 When assembling, the studs, located under the pinch roller, must be inserted between the direction lever and pinch roller spring.

#### Left

Perform the same procedure for the right as shown above.

# ◆ Capstan motor and flywheel assembly

(See Figures 5 - 22 to 5 - 24)

- Remove three screws ② retaining the FM bracket assembly mounting from the chassis base. (See Figure 5 - 22)
- Open outwards and remove two tabs (B) retaining the FM bracket .
- 3. The capstan belt, flywheel and other related parts can be removed with the FM bracket pulled up slightly. Since, at this time, the reel belt between the flywheel and main pulley will be hooked on the FM bracket, remove the belt using a tool which will not damage the belt. If the flywheel is hooked on the FM bracket, remove them together as they are.

# Cassette mechanism top view

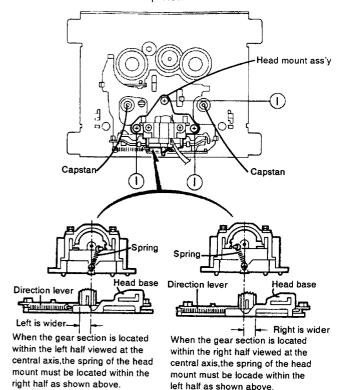

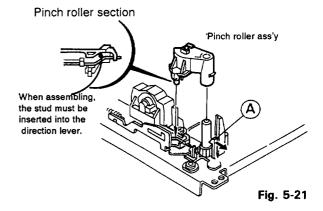

Fig. 5-20a

Fig. 5-20

Cassette mechanism top view

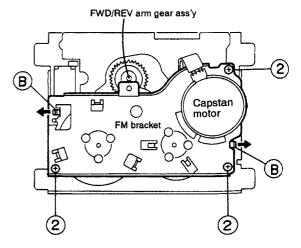

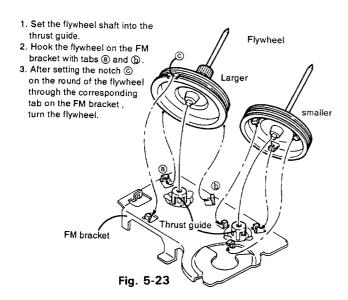

Fig. 5-22

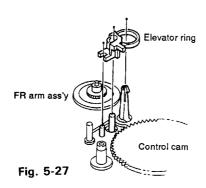

# How to assemble the FM bracket

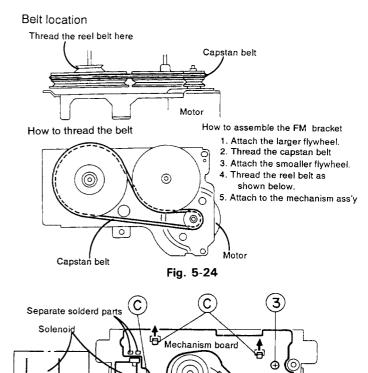

(See Figure 5-24)

- 1. Attach the larger flywheel on the FM bracket as shown.
- 2. Thread the capstan belt.
- 3. Attach the smaller flywheel.
- Thread the reel belt onto the mechanism assembly studs as shown. At this time, be careful that the belt is not twisted.
- 5. With the FM bracket turned upside down, insert the capstans into the capstan metals.
- 6. Take off the reel belt from the studs and thread it onto the flywheel. (Check that the belt is not twisted.)

# ◆ Mechanism board assembly (See Figure 5-25)

- 1. When the solenoid is not removed, separate the soldered parts of the PC board on the solenoid terminal.
- 2. Remove the screw ③ retaining the PC board mounting.
- 3. Remove the four tabs (C) mechanism board retaining.
- 4. In this state, the mechanism board can be removed. The hall IC, S6 relay and other related parts can be replaced. The leaf switch can be replaced without removing the mechanism board.

Trigger arm
Reel belt

Location where the reel belt is hooked around studs when attaching the FM bracket.

Fig. 5-25

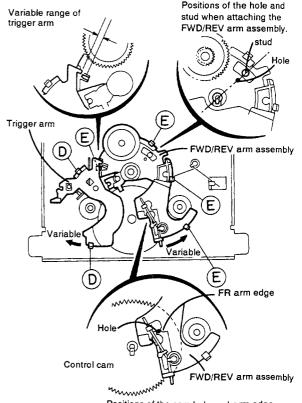

Fig. 5-26 Positions of the cam hole and arm edge when attaching the FWD/REV arm assembly.

# ◆ Control cam (Figures 5-26 to 5-31)

- 1. Remove the FM bracket and flywheel.
- 2. Pull out the main pulley.
- Remove the trigger arm.
   While opening two tabs (D) under the trigger arm, pull out the trigger arm from the shaft.
- 4. Pull out the elevator ring.
- 5. Remove the FWD/REV arm assembly.
  - a. Remove the FWD/REV arm spring.
  - b. Whilr opening four tabs (E) retaining the FWD/REV arm outwards, pull out the FWD/REV arm.
- 6. Pull out the control cam.

While pulling the shaft stopper section of the control cam in the central direction, pull out the control cam.

### How to assemble

- 1. Move the FWD/REV arm in the direction of the arrow.
- 2. In step 1, pull the head base forward.
- In step 2, after inserting the cam into the shaft, move the head base and FWD/REV arm slightly until the cam is fully inserted and it clicks to inform when it has been locked.
- 4. Rotate the cam counterclockwise to check if the cam rotates smoothly and the spring clicks according to the forward/backward movement of the head base.
- After checking the rotation of the cam, rotate the cam until the notch section comes to the right so that the FWD/REV arm assembly can be attached.
- Attach the FWD/REV arm assembly while observing the positioning of:

the hole and stud

the cam hole and arm edge

shown in the Figure 5-26.

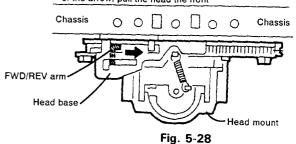

After attachment, move the FWD/REV arm in the direction of the arrow to check if it moves back to the original position.

- 7. Attach the elevator ring.
- 8. Attach the trigger arm.

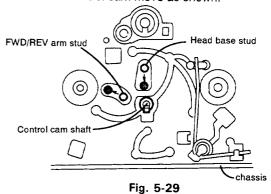

After attachment, move the trigger arm in the direction of the arrow to check if it moves back to the original position.

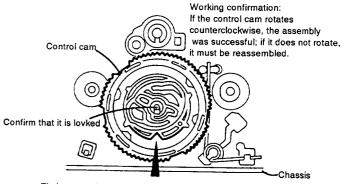

# When attaching the control cam

While pressing the FWD/REV arm in the direction of the arrow, pull the head the front

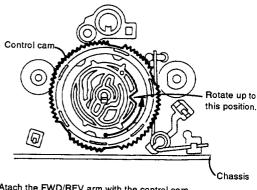

After preforming the procedure shown above, the studs under the control cam move as shown.

Fit the control cam with its notch located as shown. (Engage with the gear of the control cam while moving the FWD/REV arm and head base slightly.)

Fig. 5-30

Atach the FWD/REV arm with the control cam rotated up to the position shown.

Fig. 5-31

#### **CD Changer Mechanism Sections**

### ■ Removing the CD tray assembly

(See Figs. 5-32~5-38)

- 1. Remove the front panel assembly.
- 2. Remove the CD changer assembly.
- 3. Remove the CD amplifier board.
- 4. From the T. bracket section (A) and clamper base section (B), remove both of the edges fixing the rod (See Figs. 5-32 and 5-33).
- 5. Remove the three screws (1) retaining the T. bracket (See Fig. 5-32).
- 6. From the left side face of the chassis assembly, remove the one screw (4) retaining both of the return spring and lock lever.
- 7. By removing the pawl at the section (D) fixing the return spring, dismount the return spring (See Fig. 5-34).
- 8. Remove the three lock levers (See 5-34).

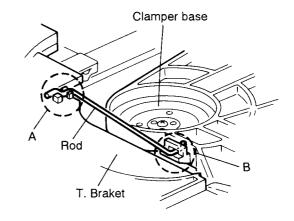

Fig. 5-32

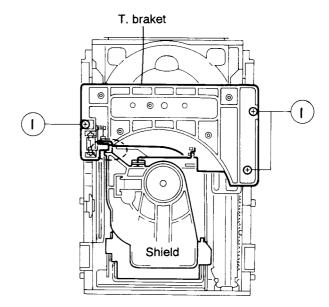

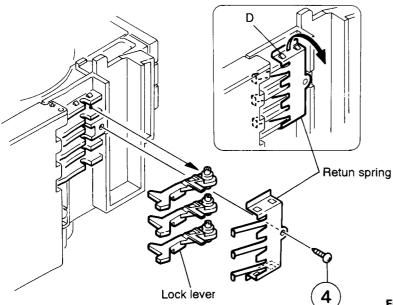

Fig. 5-33

- 11. Check whether the lifter unit stopper has been caught into the hole at the section (F) of CD tray assembly as shown in Fig. 5-36.
- 12. Make sure that the driver unit elevator is positioned as shown in Fig. 5-36a from to the second or fifth hole on the left side face of the CD changer mechanism.
- [Caution] In case the driver unit elevator is not at the above position, set the elevator to the position as shown in Fig. 5-36a by manually turning the pulley gear as shown in Fig. 5-37.
- 13. Manually turn the motor pulley in the clockwise direction until the lifter unit stopper is lowered from the section (F) of CD tray assembly (See Fig. 5-37).
- 14. Pull out all of the three stages of CD tray assembly in the arrow direction (E) until these stages stop (See Fig. 5-35).
- 15. At the position where the CD tray assembly has stopped, pull out the CD tray assembly while pressing (H) the two pawls (G) on the back side of CD tray assembly (See Fig. 5-38). In this case, it is easy to pull out the assembly when it is pulled out first from the stage CD tray assembly.

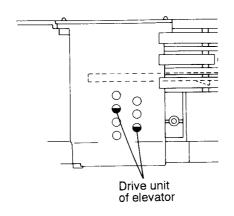

Fig. 5-36a

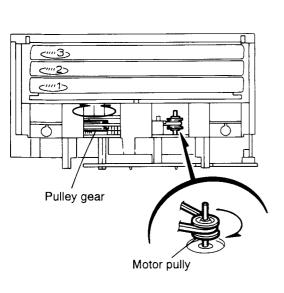

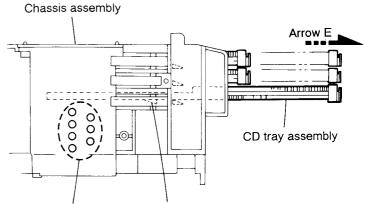

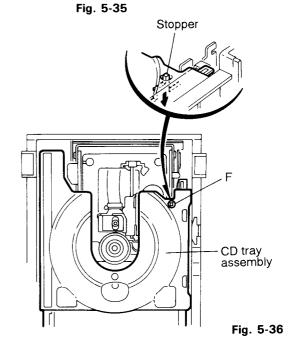

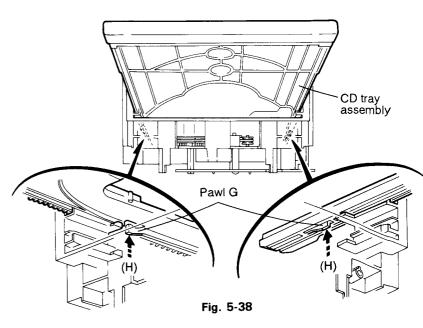

Fig. 5-37

Refer to Fig. 5-24a Pawl G (See Fig. 5-26)

## Removing the CD mechanism assembly (See Fig. 5-39)

- 1. While turning the cams R1 and R2 assembly in the arrow direction (I), align the shaft (J) of the CD mechanism assembly to the position shown in Fig. 5-39.
- Remove the four screws (5) retaining the CD mechanism assembly (See Fig. 5-39).

### Removing the CD mechanism

(See Figs. 5-40 and 5-41)

- For dismounting only the CD mechanism without removing the CD mechanism assembly, align the shaft (L) of the CD mechanism assembly to the position shown in Fig. 5 - 40 while turning the cam R1 and R2 assembly in the arrow direction (K).
- 2. By raising the CD mechanism assembly in the arrow direction (M), remove the assembly from the lifter unit (Fig. 5-41).

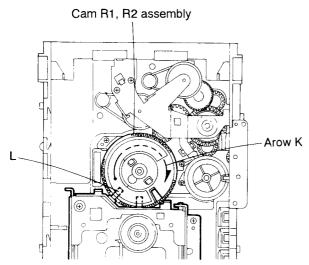

Fig. 5-40

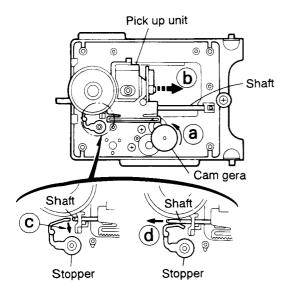

Fig. 5-42

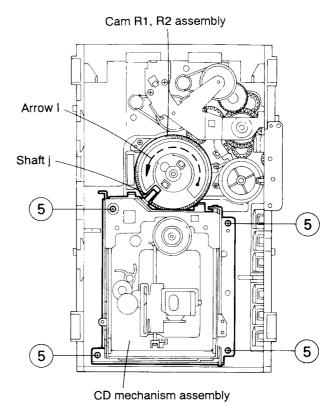

Fig. 5-39

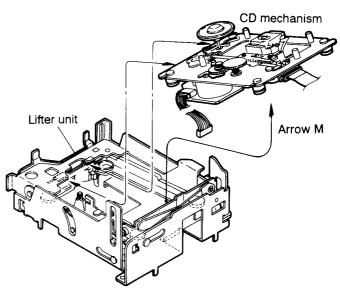

Fig. 5-41

## Removing the CD pickup unit (See Fig. 5-42)

- 1. Move the cam gear in the arrow direction ⓐ. Then, the CD pickup unit will be moved in the arrow direction ⓑ.
- 2. According to the above step, shift the CD pickup unit to the center position (Fig. 5-42).
- 3. While pressing the stopper retaining the shaft in the arrow direction ©, pull out the shaft in the arrow direction ③ (See Fig. 5-42).
- 4. After dismounting the shaft from the CD pickup unit, remove the CD pickup unit.

### Removing the actuator motor board

(See Figs. 5-43 and 5-44)

- 1. Absorb the four soldered positions (N) of the right and left motors with a soldering absorber (See Fig. 5-43).
- 2. Remove the two screws (6) retaining the actuator motor board (See Fig. 5-44).
- 3. Remove the one screw (11) retaining the bracket (See Fig. 5-43).
- 4. Remove the two screws (7) retaining the tray select switch board (See Fig. 5-44).

#### Removing the cam unit

(See Figs. 5-33~5-35)

- 1. Remove the CD mechanism assembly.
- 2. While turning the cam gear L, align the pawl (N) position of the drive unit to the notch position (Fig. 5 45) on the cam gear L.
- 3. Pull out the drive unit and cylinder gear (See Fig. 5-46).
- 4. While turning the cam gear L, align the pawl (O) position of the select lever to the notch position (Fig. 5 47) on the cam gear L.
- 5. Remove the four screws (8) retaining the cam unit (cam gear L and cams R1/R2 assembly) (See Fig. 5-47).

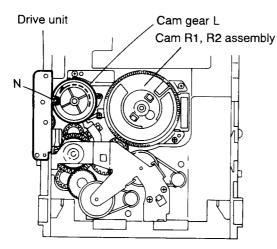

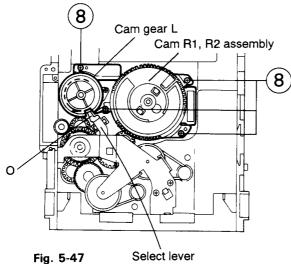

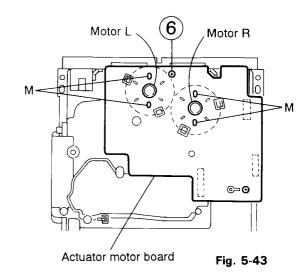

Fig. 5-45

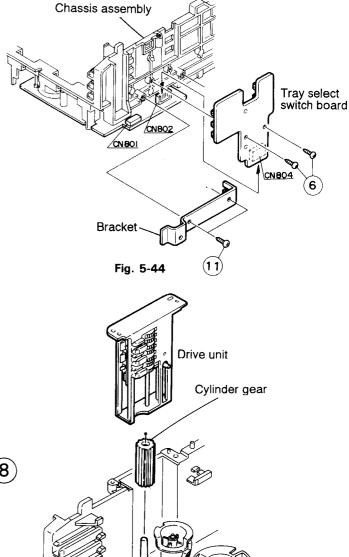

Fig. 5-46

## ■ Removing the actuator motor and belt (See Figs. 5-48~5-51)

- 1. Remove the two screws (9) retaining the gear bracket (See Fig. 5-48).
- While pressing the pawl (P) fixing the gear bracket in the arrow direction, remove the gear bracket (See Fig. 5 – 48).
- 3. From the notch (Q section) on the chassis assembly fixing the edge of gear bracket, remove and take out the gear bracket (See Fig. 5-49).
- 4. Remove the belts respectively from the right and left actuator motor pulleys and pulley gears (See Fig. 5-50).
- 5. After turning over the chassis assembly, remove the actuator motor while spreading the four pawls (R) fixing the right and left actuator motors in the arrow direction (See Fig. 5-50).

[Note] When the chassis assembly is turned over under the conditions wherein the gear bracket and belt have been removed, then the pulley gear as well as the gear, etc. constituting the gear unit can possibly be separated to pieces. In such a case, assemble these parts by referring to the assembly and configuration diagram in Fig. 5-51.

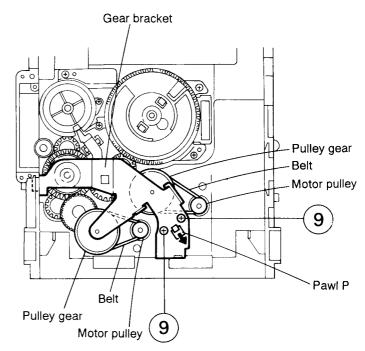

Fig. 5-48

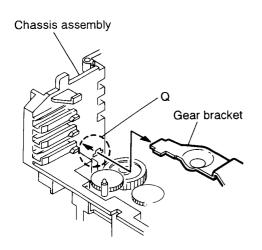

Fig. 5-49

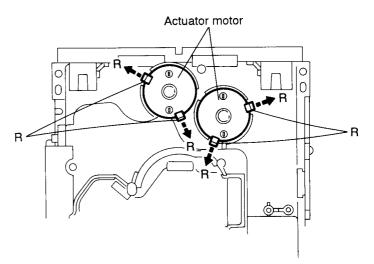

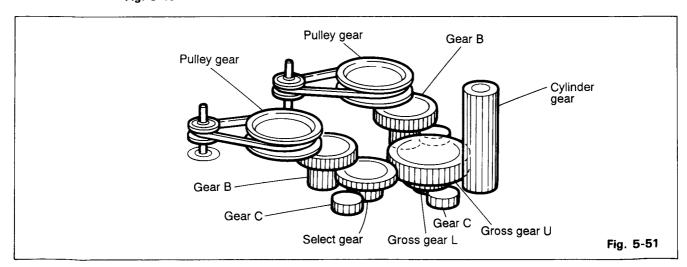

Fig. 5-50

## ■ Removing the cams R1/R2 assembly and cam gear L (See Fig. 5-52)

- 1. Remove the slit washer fixing the cams R1 and R2 assembly.
- 2. By removing the two pawls (S) fixing the cam R1, separate R2 from R1.
- 3. Remove the slit washer fixing the cam gear L.
- 4. Pull out the cam gear L from the C.G. base assembly.

## Removing the C.G. base assembly (See Figs. 5-52 and 5-53)

Remove the three screws (10) retaining the C.G. base assembly.

[Caution] To reassemble the cylinder gear, etc. with the cam unit (cam gear and cams R1/R2 assembly), gear unit and drive unit, align the position of the pawl (N) on the drive unit to that of the notch on the cam gear L. Then, make sure that the gear unit is engaged by turning the cam gear L.

## 7. Main Adjustment

#### ■ Test instruments required for adjustment

- 1. Low frequency oscillator
- •Oscillation frequency:50Hz to 20kHz
- •Output:dBs with 600  $\Omega$  terminator
- 2. Attenuator(impedance:600  $\Omega$  )
- 3. Electronic voltmeter
- 5. Distortion meter
- 6. Torque gauge · · · · · · · Cassette type for CTG-N

  mechanism adjustment
- 7. Wow and Flutter meter
- 8. Frequency counter
- 9. Test Tapes

o. 1001 Tapoo
VTT704(12.5kHz)·············Head azimuth
VTT712 (3kHz) · · · · · · Tape speed and wow & flutter
VTT727 (400Hz) · · · · · · · Playback output level
TMT735 (1kHz/12.5kHz)···· Frequency response check
VTT739(63Hz/1kHz/10kHz) · Frequency response check
AC - 225 ·····Normal tape(Rec/PB)
AC-515 ···· Chrome tape(Rec/PB)
10. Extension cable ····· EXTUXC30-JIG
11. Test disc CTS-1000

#### ■ Measuring conditions(Amplifier section)

Supply voltage: AC230V/50Hz

Reference output:Speaker  $\cdots \cdots 0$ dBs(0.775V)/3  $\Omega$  :Headphone  $\cdots - 20$ dBs(0.775V)/32  $\Omega$  Reference input: AUX IN  $\cdots - 8$ dBs

#### Standard position of function switches

Function switch · · · · · TAPE
DOLBY NR switch · · · · · OFF
Super -Bass switch · · · · · OFF

#### Standard position of volume control

Main volume adjust · · · · · Adjust 0dB
Bass Treble
Measuring point · · · · · CN322 or Headphone

#### ■ Measuring condition(Radio section)

(Radio alignment is not necessary for this model.)

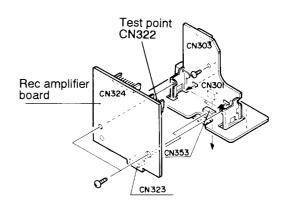

AM frequency ············400Hz modulation 30% FM frequency ···········400Hz modulation frequency deviation 22.5kHz

#### Standard position of switches and controlls

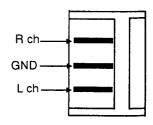

Function	 	 ····· RADIO
Mode · · ·	 <i></i>	 ····· STEREO

#### Careful points for adjustment

- 1. Connect 30 pF capacitor and 33k  $\Omega$  resistor to the output side of the IF sweeper in series while 0.082  $\mu$  F capacitor and 1000k  $\Omega$  resistor to the input side in series.
- 2. Set output level of the IF sweeper as minimum as adjustable.

#### CN322 Test point

### ■ Cassette mechanism & Amplifier section

Items	Conditions	Adjustment and Confirmation	Standard Value	Adjusting
Adjusting the head angle	Test tape : VTT704 (12.5 kHz) Measured output terminal: Speaker terminals (L, R channels) (load impedance: 8 Ω)	<ol> <li>(1) Play test tape VTT704 (12.5 kHz).</li> <li>(2) Turn to adjust the head azimuth adjustment screw so that the playback output level's deviation from the peak point comes to within 2 dBs and that the phase difference becomes the minimum. After adjusting, apply a screw-locking compound so that it covers over half of the screw head in order to prevent the head from moving.</li> <li>(3) If measured levels are not as those specified, fine – adjust them using the head azimuth adjustment screw.</li> </ol>	Within 2 dB deviation from peak point Minimum phase difference	Readjust after head replacement
Adjustinfg the tape speed Checking the wow & flutter	Test tape :VTT712 (3 kHz) Measured output terminal : CN322 (TP) pin or speaker terminal (load impedance: 3 Ω)	<ul> <li>(1) Adjust the VR301 so that the frequency counter reads 3010 ± 10 Hz when playing back the ending of test tape VTT712 (3 kHz).</li> <li>(2) Check that wow and flutter are less than 0.25% (JIS WTD).</li> </ul>	Tape speed: Within 3010 ± 10 Hz Wow and flutter: Lower than 0.25% (JIS WTD)	VR301
Adjusting the playback output level	Test tape: VTT727 (400 Hz) Measured output terminal : CN322 (TP) pin	Adjust the VR101 (L) and VR201 (R) so that the level at the CN322 pin comes to -8 dBs $\pm$ 1 dB when playing back test tape VTT727.	-8 dBs ± 1 dB	L: VR101 R: VR201
Checking the playback frequency response	Test tapes: VTT739 (63 Hz, 1 kHz, 10 kHz) TMT735 (1 kHz, 12.5 kHz) Measured output terminal : CN322 (TP) pin	Check that the level deviations, when playing back the test tapes VTT739 (1 kHz, 63 Hz) and TMT735 (1 kHz, 12.5 kHz), are within 0 $\pm$ 4 dBs at 63 Hz and 0 $\pm$ 3 dBs at 12.5 kHz when compared to those at 1 kHz.	1 kHz/63 Hz: 0 ± 4 dBs 1kHz/12.5kHz: 0 ± 3 dBs	

Items	Conditions	Adjustment and Confirmation	Standard Value	Adjusting
Adjusting the bias oscillation frequency	Test tape : AC-515 Measured output : Oscillation coil secondary side (erase)	<ul> <li>(1) Connect a frequency counter (with a 1 M Ω resistor inserted in series) to the L321 secondary side erase pin.</li> <li>(2) Load the test tape (AC-515) in the deck and set to Record-Pause mode.</li> <li>(3) Adjust the T3351 so that the frequency counter level reads 100 kHz ± 0.2 kHz in Record mode.</li> </ul>	100 kHz ± 0.2 kHz	T3351
Adjusting the Rec /Playback frequency response	Reference frequencies : 1.25 kHz, 12.5 kHz (Reference level: - 20 dBs) Measured input terminal : AUX IN Measured output : CN322 Test tape : AC-225	<ul> <li>(1) Alternately repeat recording reference frequencies of 1.25 kHz and 12.5 kHz via the AUX IN terminal on a normal tape.</li> <li>(2) Adjust the VR103 and VR203 so that the output deviation between 1.25 kHz and 12.5 kHz at the CN322 pin comes to -0.5 ± 1 dB when playing back recorded sections.</li> </ul>	Normal tape: -0.5 ± 1 dB	L: VR103 R: VR203
Adjusting the recording/playb sensitivity	Test tape:  AC-225 Input terminal : AUX IN Output terminal : CN322 Reference frequency : 400 Hz (Reference level: -20 dBs)	Record and play back a reference frequency of 400 Hz with a reference level of - 20 dBs via the AUX IN terminal on test tape AC-225, and adjust the VR102 and VR202 so that the level at this time comes to 0 ± 1 dB when compared to the monitor level.	0 ± 1 dB	L: VR102 R: VR202
Checking Dolby NR effect	Test tape: VTT704 (12.5 kHz) Measured output : CN344	When playing back the VTT704 (12.5 kHz) and turning the Dolby NR switch from OFF to ON, check that the level lowers by approx. 4 dBs.	Lowers by 4 dBs	

#### **■** CD section

Items	Conditions	Adjustment and Confirmation	Standard Value	Adjusting
1. Checking jitter	Measurement equipment: Oscilloscope (jitter meter) Test points: TP601: ground side TP602: hot side	Connect the jitter meter between the TP601 and TP602, and check that the jitter meter reads 26 nsec. or less when playing back the test disc "Track 1".	26 nsec. or less	
2. Checking the RF level (eye pattern)	Measurement equipment: Oscilloscope TP601: ground side TP602: hot side	Connect the oscilloscope between the TP1 and TP2, and check that the peak-to-peak value of the oscilloscope waveform reads within 1.1 V $\pm$ 0.2 V when playing back the test disc "Track 1".  Eye pattern waveform  Check that the maximum level of this waveform is within the standard values and that the waveform is clearly visible.		
3. Checking the outermost area	CTC-1000	Select "Track 28" on the outer area of test disc directly and check that it begins playback smoothly and that there are no abnormal conditions such as a tracking error.		
4. Checking the pickup movement from the outer area to the inner area		Allow the pickup to skip over from the disc's outermost area to "Track 1" and check that it takes within 10 seconds for the player to enter Play mode.	Within 10 seconds	

## 8. Troubleshooting

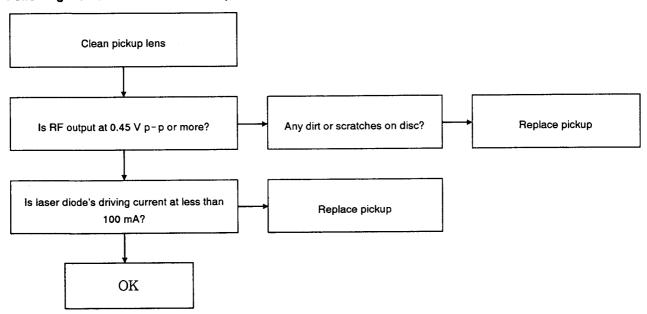

#### ■ Pickup maintenance

(1) Checking the service life of laser diode

If a laser diode reaches the end of its service life, the following phenomena will show up. Similar symptoms may also appear when the pickuplens becomes too dirty. In this case, clean the lens.

- 1) The RF output (between IC601 ⑦ and ® (GND)) lowers.
- 2) The driving current, necessary for the laser diode to emit lights, increases. (Calculate from the voltage level at both ends of the R614 at 10  $\Omega$  .)

#### Following the flow chart shown below, check the service life.

#### How to measure laser diode's driving current

After connecting a voltmeter at both ends of the R614(10  $\Omega$  ), measure the voltage during playback. If the voltage level is at 1.0 V or more, the service life of the laser diode has expired.

Laser diode's driving current (A)

= Voltage level at both ends of R614 (V)/10 (  $\Omega$  )

When voltage level is at 1.0 V:

 $1.0 \text{ V/}10 \Omega = 0.1 \text{ A} = 100 \text{ mA}$ 

#### Note:

The laser diode easily breaks down. Be sure to turn the power off before connecting a voltmeter.

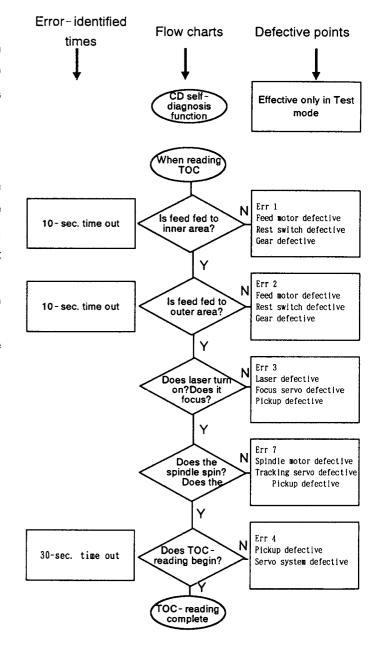

# **■** HOW TO OPERATE THE CD SELF - DIAGNOSIS FUNCTION

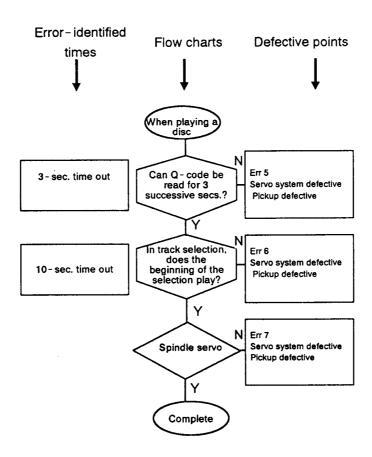

#### The CD Self-diagnosis Function

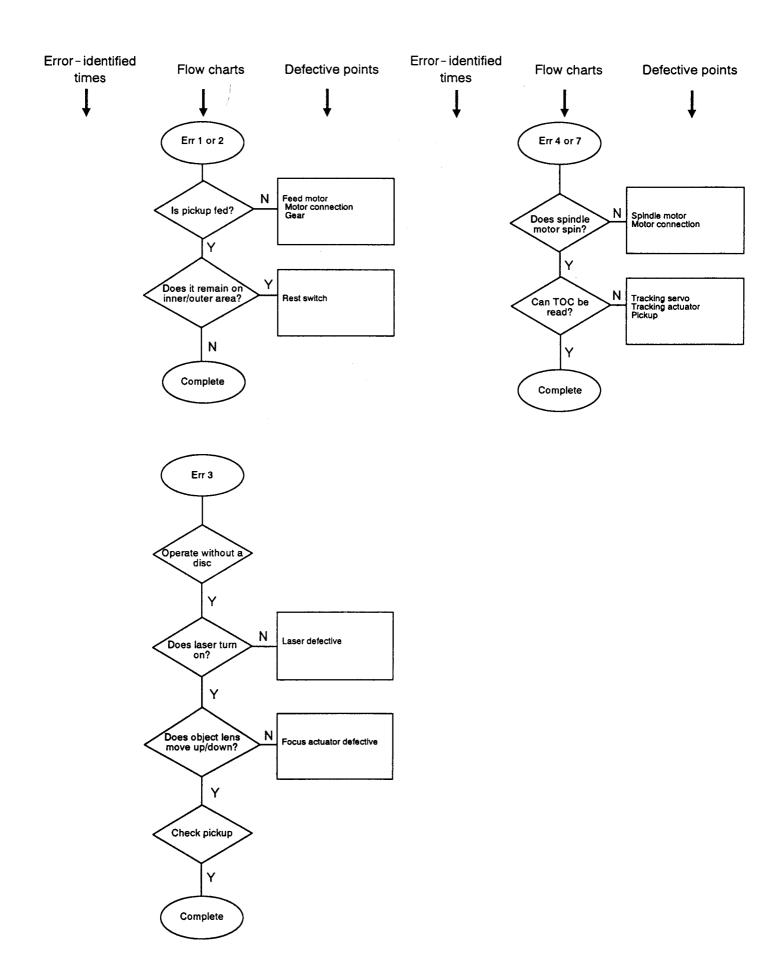

If any malfunction occurs in the CD player, this system can be set to make an error code indication appear on the LCD to point out the defective parts. This efficiently helps service personnel find the causes of the malfunction.

#### 1. Operation

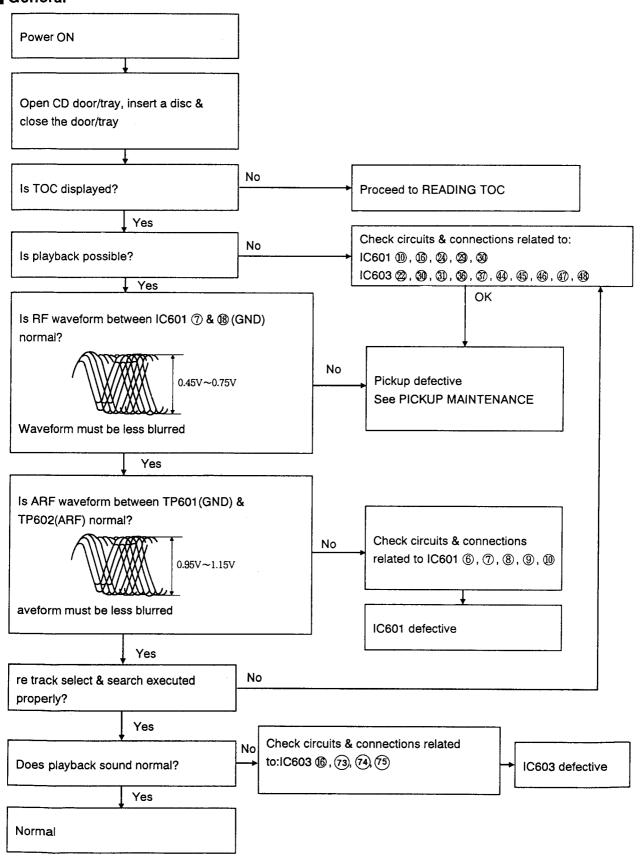

- Press the three , +10 and POWER buttons on the remote control to enter the Test mode. (Then the illuminating portions of the LCD all light up together. This indicates that the system has entered the Test mode.)
- 2 Play a CD. If the operation is defective in any way, an error code should appear on the LCD.
- 3 Identify the point of malfunction in accordance with the error code displayed.
- 2. Error codes & defective points
